

**REGISTRATION CERTIFICATE - USE OF DEPLETED URANIUM
UNDER GENERAL LICENSE**
NORTH DAKOTA DEPARTMENT OF HEALTH
DIVISION OF AIR QUALITY
SFN 16092 (RCP-20)(01/02)

Section 33-10-02-04.1.e of Chapter 33-10-03 of the North Dakota Radiological Health Rules establishes a general license authorizing the use of depleted uranium contained in industrial products or devices for mass-volume applications. This form must be submitted within thirty (30) days after the first receipt or acquisition of such depleted uranium.

Submit this form (SFN 16092) in duplicate to North Dakota Department of Health, Division of Air Quality, 1200 Missouri Avenue, P.O. Box 5520, Bismarck, North Dakota 58506-5520.

A certification number will be assigned and a validated copy of SFN 16092 will be returned to the registrant.

Print or type the name and address (including the zip code) of the registrant for whom this form is filed within the box below:

I am filing SFN 16092 pursuant to section 33-10-03-04.1.e, for use of depleted uranium contained in industrial products or devices from mass-volume applications.

If place of use is different from the address above, give complete address and telephone number:

Certification Number

Leave this box blank.
Number will be assigned by the Department.

I certify that:

- a. All information in this certification is true and complete.
- b. The registrant has developed and will maintain procedures designed to establish physical control over the depleted uranium described in section 33-10-03-04.1.e and designed to prevent transfer of such depleted uranium in any form, including metal scrap, to persons not authorized to receive the depleted uranium.
- c. I understand that Department rules require that any changes in information furnished by a registrant on this registration certificate be reported in writing to the Department within thirty (30) days after the effective date of such change.
- d. I understand that the registrant is required to comply with the provisions of section 33-10-03-04.1.e (reprinted as part of this form) with respect to all depleted uranium which he receives, acquires, uses, or transfers under the general license for which this registration certificate is filed with the Department.

CONDITIONS AND LIMITATIONS OF GENERAL LICENSE 33-10-03-04.1.e

33-10-03-04.1.e. Depleted Uranium in Industrial Products and Devices

after the effective date of such change.

- (1) A general license is hereby issued to receive, acquire, possess, use, or transfer, in accordance with the provisions of paragraphs (2), (3), (4), and (5) of depleted uranium contained in industrial products or devices for the purpose of providing a concentrated mass in a small volume of a product or device.
- (2) The general license in paragraph (1) applies only to industrial products or devices which have been manufactured either in accordance with a specific license issued to the manufacturer of the products or devices pursuant to or in accordance with a specific license issued to the manufacturer by the United States nuclear regulatory commission or an agreement state which authorizes manufacturer of the products or devices for distribution to persons generally licensed by the United States nuclear regulatory commission or an agreement state.
- (3) (a) Persons who receive, acquire, possess, or use depleted uranium pursuant to the general license established by paragraph (1) shall file SFN 16092 - Registration Certificate - Use of Depleted Uranium under General License" with the Department. The form shall be submitted within the thirty (30) days after the first receipt of acquisition of such depleted uranium. The registrant shall furnish the following information and such other information as may be required by that form:
 - (1) Name and address of registrant.
 - (2) A statement that the registrant has developed and will maintain procedures designed to establish physical control over the depleted uranium described in paragraph (1) and designed to prevent transfer of such depleted uranium in any form, including metal scrap, to persons not authorized to receive the depleted uranium.
 - (3) Name and title, address, and telephone number of the individual duly authorized to act for and on behalf of the registrant in supervising the procedures identified in paragraph (1).
- (b) The registrant possessing or using depleted uranium under the general license established by paragraph (1) shall report in writing to the Department any changes in information furnished by him in SFN 16092 "Registration Certificate - Use of Depleted Uranium under General License". The report shall be submitted within thirty (30) days
- (1) A person who receives, acquires, possesses, or uses depleted uranium pursuant to the general license established by paragraph (1):
 - (a) Shall not introduce such depleted uranium, in any form, into a chemical, physical, or metallurgical treatment or process, except a treatment for process for repair or restoration of any plating or other covering of the depleted uranium.
 - (b) Shall not abandon such depleted uranium.
 - (c) Shall transfer or dispose of such depleted uranium only by transfer in accordance with the provisions of subsection 12 of section 33-10-03-05. In the case where the transferee receives the depleted uranium pursuant to the general license established by paragraph (1), the transferor shall furnish the transferee a copy of this regulation and a copy of SFN 16092. In the case where the transferee receives the depleted uranium pursuant to the general license contained in the United States nuclear regulatory commission's or agreement state's regulation equivalent to paragraph (1), the transferor shall furnish the transferee a copy of this section and a copy of SFN 16092 accompanied by a note explaining that use of the product or device is regulated by the United States nuclear regulatory commission or agreement state under requirements substantially the same as those in this article.
 - (d) Within thirty (30) days of any transfer, shall report in writing to the Department the name and address of the person receiving the depleted uranium pursuant to such transfer.
 - (e) Shall not export such depleted uranium except in accordance with a license issued by the United States nuclear regulatory commission pursuant to 10 CFR Part 110.
- (5) Any person receiving, acquiring, possessing, or transferring depleted uranium pursuant to the general license established by paragraph (1) is exempt from the requirements of chapters 33-10-04 and 33-10-10 with respect tot he depleted uranium covered by that general license.
