Oil						
Brine						
Other	35	Gallons	35	Gallons		

Description of Other Released Contaminant:

Natural gas and natural gas condensates

Inspected:

Written Report Received:

Clean Up Concluded:

Risk Evaluation:

The duration of the leak was 5 minutes and resulted in no immediate health effects.

Areal Extent:

The leak was contained on the facility site.

Potential Environmental Impacts:

Because the leak was contained to the facility site, there are no adverse effects to the environment. No groundwater or surface water was impacted.

Action Taken or Planned:

The soil will be removed and the pipe will be dug up and capped off at the main line. The service will be rerouted with new piping.

Wastes Disposal Location: The recovered waste will be disposed of in a permitted landfill.

Agencies Involved:

Updates

Date: 5/7/2014 **Status:** Reviewed - Assigned to Other Agency **Author:** Roberts, Kris

Updated Oil Volume:

Updated Salt Water Volume:

Updated Other Volume:

Updated Other Contaminant

Notes:

Release from a pipeline leak is reported to have remained on location. A call to ONEOK verified that the leak was on an oil production location. NDIC retains oversight.
