Date: 11/12/2014 **Status:** Inspection

Author: Crowdus, Kory

Updated Oil Volume:

Updated Salt Water Volume:

Updated Other Volume:

Updated Other Contaminant

Notes:

On site 11/12/2014 at 2:42 p.m. Walked perimeter of well pad. There is no evidence of remaining impact to soil or vegetation. Area south of flare pit appears to have been scraped. Spoke to contact person and was told it was a light mist into stubble field and area was scraped. No further followup required.
