

Oil Field Environmental Incident Summary

Incident: 20141205160604 **Date/Time of Notice:** 12/05/2014 16:06

Responsible Party: ONEOK Rockies Midstream

Well Operator:

Well Name:

Field Name:

Well File #:

Date Incident: 12/4/2014 **Time Incident:** 20:30

Facility ID Number:

County: MCKENZIE

Twp: 150

Rng: 95

Sec: 18

Qtr: SE

Location Description: Blue Buttes Compressor Station is situated approximately 17 miles due east of Watford City, ND on highway 73 on the north side of the highway.

Submitted By: Mitch Anderson

Received By:

Contact Person: Mitch Anderson
2700 Lincoln Avenue SE
Sidney, MT 59270

General Land Use: Well/Facility Site

Affected Medium: Well/Facility Soil

Distance Nearest Occupied Building: 1 Mile

Distance Nearest Water Well: 1 Mile

Type of Incident: Tank Leak

Release Contained in Dike: Yes - On Facility Site

Reported to NRC: No

	Spilled	Units	Recovered	Units	Followup	Units
Oil						
Brine						
Other	3	Barrels	3	Barrels		

Description of Other Released Contaminant:

Methanol release from Day Tank.

Inspected:

Written Report Received:

Clean Up Concluded:

Risk Evaluation:

There were no immediate health hazards impacted as a result of this release event.

Areal Extent:

Approximately 20'W x 50'L

Potential Environmental Impacts:

There were no adverse environmental impacts realized with this release event.

Action Taken or Planned:

Most of the methanol was pooled on the frozen ground at the base of the Day Tank and was recovered by pumping it back into the tank.

Wastes Disposal Location: Contaminated soils will be transported and disposed at a licensed facility.

Agencies Involved: McKenzie County LEPC Director

Updates

Date: 12/5/2014 **Status:** Reviewed - No Action Required

Author: Roberts, Kris

Updated Oil Volume:

Updated Salt Water Volume:

Updated Other Volume:

Updated Other Contaminant

Notes:

Company was contacted by telephone this date. Release was due to a partially closed valve, resulting in a release to frozen ground. A vacuum truck was immediately deployed to recover and return remaining liquid to the tank. The balance of the release is expected to evaporate quickly. No on-location inspection is necessary.
