**Notes:**

I arrived at the site at 11:00 a.m. The weather was clear, 50 °F, with the wind from the northwest 10-15 mph. The site is located on the north side of the gravel road along the ditch. I did not see that anything had left the dikes around the tanks at the site, although there is some debris around the site. NDIC retains oversight. 47 38.330; - 103 16.168
