Description of Other Released Contaminant:

Condensate and natural gas from a gas gathering pipeline release.

Inspected:

Written Report Received: 9/8/2015

Clean Up Concluded: 6/8/2015

Risk Evaluation:

The release has been secured, and the pipeline has been isolated until repairs can be made.

Areal Extent:

The extent of impacted soil will be evaluated during the pipeline repair activities.

Potential Environmental Impacts:

There was no surface water observed in the immediate vicinity of the release location. The pipeline will be repaired, and any impacted soil that is encountered during the excavation work will be transported off-site for proper disposal.

Action Taken or Planned:

The failure point on the pipeline will be repaired, and any impacted soil that is encountered during the excavation work will be transported off-site for proper disposal.

Wastes Disposal Location: At a properly permitted disposal facility.
