Description of Other Released Contaminant:

Inspected:

Written Report Received:

Clean Up Concluded:

Risk Evaluation:

No immediate risk as operator was on-site and fluid burned itself out. Well was shut-in and problem was fixed immediately.

Areal Extent:

Incident contained within secondary containment.

Potential Environmental Impacts:

Minimal impacts as all fluid remained within secondary containment and fire burned itself out.

Action Taken or Planned:

Fire was noticed by operator on-site. Operator went to get his fire extinguisher, but the fire had already burned itself out. Well was then shut-in and flare line was drained. Once problem was identified and fixed the well went back online.
