**Author:** Espe, Brady

**Updated Oil Volume:**

**Updated Salt Water Volume:**

**Updated Other Volume:**

**Updated Other Contaminant**

**Notes:**

I arrived at the site at 18:12 p.m. The weather was clear, 57 °F, with the wind from the southeast 10-15 mph. An area on the pad slope vegetation and in a stubble field has been sprayed going northwest from the flare. The vegetation and stubble that was impacted is mowed. The mowed vegetation and stubble have been removed. The field does not appear to be seeded. I could not see any staining in either the field or on slope of pad lease. 47.90642; - 102.98709
