**Updated Other Volume:**

**Updated Other Contaminant**

**Notes:**

8/25/2015 at 14:25, on location. Vegetation on and off wellpad directly adjacent to flare pit in the northeast corner of the wellpad has been scraped. Off location, scraping indicates fire separated into two paths, one path to the northwest and the other to the north. No visible staining remains within or outside the scraped area or the few spots of burnt vegetation.
