---

**Date:** 10/29/2015    **Status:** Inspection

**Author:** Washek, Sandi

**Updated Oil Volume:** 1.00 barrels

**Updated Salt Water Volume:** 9.00 barrels

**Updated Other Volume:**

**Updated Other Contaminant**

**Notes:**

Arrived on site at 2:50 p.m. The weather was sunny with wind out of the NE.

Temperature was 47 degree F.

Contacted the company rep and was informed the spill occurred on the Kinder Morgan Bradac Compressor Station, with some of the material running off the site to the south into pastureland near the pipeline row. GIS 46.24099, W103.95154.

Walked the area where the soil has been scraped up and leveled. Vegetation is starting to grow back around the area. Did not go on to the compressor station. Will contact Morgan Bradac Company to conduct an inspection of the site. More followup needed.

---

**Date:** 6/3/2016    **Status:** Inspection

**Author:** Suess, Bill

**Updated Oil Volume:**

**Updated Salt Water Volume:**

**Updated Other Volume:**

**Updated Other Contaminant**

**Notes:**

It appears that impacts on the compressor station have been remediated. The vegetation in the impact area off the compressor station pad is returning but has not fully recovered. More follow-up is needed to verify full vegetation recovery.
