

Oil Field Environmental Incident Summary

Incident: 20151214072159 **Date/Time of Notice:** 12/14/2015 07:21

Responsible Party: STATOIL OIL & GAS LP

Well Operator: STATOIL OIL & GAS LP

Well Name: JACK CVANCARA 19-18 5TFH

Field Name: ALGER

Well File #: 24983

Date Incident: 12/13/2015 **Time Incident:** 10:30

Facility ID Number:

County: MOUNTRAIL

Twp: 155

Rng: 92

Sec: 19

Qtr:

Location Description:

Submitted By: Derrick McBride

Received By:

Contact Person: Rick Nelson
6300 BRIDGE POINT PKY, BLDG 2
SUITE 500
AUSTIN, TX 78730

General Land Use: Well/Facility Site

Affected Medium: Well/Facility Soil

Distance Nearest Occupied Building:

Distance Nearest Water Well:

Type of Incident: Tank Overflow

Release Contained in Dike: Yes - On Constructed Well Site

Reported to NRC: No

Updates

Date: 12/15/2015 **Status:** Inspection

Author: O'Gorman, Brian

Updated Oil Volume:

Updated Salt Water Volume:

Updated Other Volume:

Updated Other Contaminant

Notes:

Arrived on location at 9:35. 19 degrees F, overcast, NW wind 0-5 mph. Observed the site and took photos. Met with the cleanup contractor to discuss progress. Area off the pad has been scraped and showed very little petroleum impacts to the frozen soil in the area. The area off the well pad was cultivated cropland on a nearly level surface north of the pad. Cleanup contractor will send photos of the cleanup with additional observations/photos collected during spring/summer 2016 for healthy vegetative growth indicators. More followup needed.

Updated Other Contaminant

Notes:

On site 05.26.16 at 4:20 p.m. 67 degrees F, mostly cloudy, wind 7 mph WNW. Good vegetation on all berms. North of the north berm is cropland. Small amount of vegetative growth appears in all of this field. A pile of topsoil, which appears to have been used for remediation, is outside of the eastern berm.

UPDATE 06.06.16: This inspection occurred at the No. 1H Jack Cvancara while the spill happened at No. 5TFH). This inspection is not valid for the spill that occurred on 12/13/15.

Date: 9/6/2016 **Status:** Inspection

Updated Other Contaminant

Notes:

Viewed area north of tank battery. Vegetation appeared to be ok outside of containment berm. Some oily stained soil inside berm. No additional follow-up inspections with regards to this release appear to be necessary.
