Date: 12/30/2015 ***Status:*** Inspection ***Author:*** Martin, Russell

Updated Oil Volume:

Updated Salt Water Volume:

Updated Other Volume:

Updated Other Contaminant

Notes:

12/30/2015 at 15:52, on location. Field north of treater units scraped. North treater unit has visible staining on the side of the housing. One 5' X 5' area of snow with light staining remains in the field, but rest of scraped area has no visible staining. Due to small amount remaining, it should naturally attenuate.
