Date: 1/12/2016 **Status:** Inspection **Author:** Martin, Russell

Updated Oil Volume:

Updated Salt Water Volume:

Updated Other Volume:

Updated Other Contaminant

Notes:

1/12/2016 at 13:10, on location. Met with site personnel. Glycol came out of gooseneck vent on top of glycol storage/reboiler building and then ran down side of building, pooling by the southeast corner. Phone call with report contact; affected facility gravel will be removed to R360's Prairie Disposal. Affected area is in center of facility with no risk of off-site migration. No further followup required.
