Updated Salt Water Volume:

Updated Other Volume:

Updated Other Contaminant

Notes:

Arrived on site at 9:00 a.m. Weather was overcast and misty, with wind out of the NE at 15 mph. The area of impact is located to the south of the well pad, between the well pad and Highway 1804. The ditch has been dug up and leveled. No visible signs of oil or soil staining. Will need to visit this summer to ensure vegetative growth.

Date: 8/1/2016 **Status:** No Further Action Requested

Updated Other Contaminant

Notes:

Arrived on site at 5:20 p.m. Weather was cloudy with temperature of 81 degrees F. The impacted area was located south of the pad between Hwy 1804 and the pad. The vegetation was growing back with no signs of stress. The landowner has planted wheat along the pad, and the crop appears in good shape. No additional follow-up needed.
