Description of Other Released Contaminant:

Inspected:

Written Report Received:

Clean Up Concluded:

Risk Evaluation:

No explosive or health hazard risk.

Areal Extent:

50' x 50' misted area NNW of facility site.

Potential Environmental Impacts:

No impact to surface water or groundwater. Off facility site area 50' x 50' affected by oil mist.

Action Taken or Planned:

NDIC field representative Jim Potts was notified telephonically. Released fluids within the facility containment area will be vacuumed up. The affected facility soil will be scraped up and collected. The off facility site affected soil will be scraped up and collected and replaced with black dirt. All collected soil will be hauled to an approved disposal site. Surface owners are not resident in Burke County. Petro Harvester will continue to attempt to contact and notify.

Wastes Disposal Location: Approved disposal facility.

Updates

Date: 3/23/2016 **Status:** Inspection

Author: O'Gorman, Brian

Updated Oil Volume:

Updated Salt Water Volume:

Updated Other Volume:

Updated Other Contaminant

Notes:

Arrived on location at 12:15. 25 degrees F, SE wind 5-15 and cloudy skies. Walked the area and took photos. It appeared the release occurred at the heater/treater and impacted cultivated cropland to the northwest in an area approximately 300 feet by 50 feet. Observations of the field showed a light residual on the stubble and rocks. Follow up in spring/summer 2016 for vegetative growth indicators.

Date: 3/23/2016 **Status:** Reviewed - Follow-up Required
