Brine

Other

Description of Other Released Contaminant:

Inspected:

Written Report Received:

Clean Up Concluded:

Risk Evaluation:

Low, release caught and pipe repaired.

Areal Extent:

Potential Environmental Impacts:

Low, most of the oil collected in the well cellar. Some soil around the wellhead impacted.

Action Taken or Planned:

Well shut in while repairs were completed. Hydrovac used to clean up soil and to clean out the cellar around the wellhead. Regular inspections and metal thickness measurements will be conducted to monitor these parts of the system.

Wastes Disposal Location: The liquids and stained soil were transported via manifest to Secure Energy for disposal. The site cleanup was completed today and new scoria placed around the wellhead cellar.
