Description of Other Released Contaminant:

Inspected:

Written Report Received:

Clean Up Concluded:

Risk Evaluation:

Low, with some crude oil released into the facility containment.

Areal Extent:

Potential Environmental Impacts:

Minimal with some location soil impacted on the surface.

Action Taken or Planned:

The well was shut in and a pumping truck from Jericho started the cleanup. Badland hydrovac was used to complete the cleanup. The operator will be given additional training in the recycle process and BS & W unit will be rechecked for proper functionality.

Wastes Disposal Location: The Solids and liquids removed from the location will be taken via manifest by Badlands hydrovac to Branch Energy (Rez Rock N Water) on the FBIR. The cleanup was completed today. New scoria ballast was placed inside the facility containment.
