**Date:** 4/12/2016    **Status:** Inspection

**Author:** Espe, Brady

**Updated Oil Volume:**

**Updated Salt Water Volume:**

**Updated Other Volume:**

**Updated Other Contaminant**

**Notes:**

I arrived at the site 1:30 p.m. Weather was sunny and 75°F, with wind from the northwest 10-15 mph. The oil sprayed from the flare going southeast of pad into the ditches and a small area of the hay field. Impacted vegetation can be observed from hill tops on county gravel road, but it is difficult to see when walking around the impacted vegetation. The vegetation had not been clipped at the time of the inspection. More follow-up needed. 46.07553,-103.64872
