Author: O'Gorman, Brian

Updated Oil Volume:

Updated Salt Water Volume:

Updated Other Volume:

Updated Other Contaminant

Notes:

According to the report, .5 gallons of hydraulic fluid spilled onto a gravel road. More follow-up needed.

Date: 5/12/2016 **Status:** Inspection

Author: Martin, Russell

Updated Oil Volume:

Updated Salt Water Volume:

Updated Other Volume:

Updated Other Contaminant

Notes:

5/12/2016 at 12:30. Drove along County Road 9, which is a paved road, and 132nd Street, which is a dirt/gravel road. No visible staining anywhere along either road in the area indicated in the report. Drove along nearby roads as well and did not see any staining. Only staining visible was on a paved portion of County Road 9 where it connects with Highway 1804. This staining appeared to be old and degraded on the pavement. Attempted to call responsible party to confirm location of "dribble"; however, phone number in report appears to be incorrect.

Date: 6/6/2016 **Status:** Correspondence
