Brine

Other

Description of Other Released Contaminant:

Inspected:

Written Report Received: 8/22/2016

Clean Up Concluded: 7/19/2016

Risk Evaluation:

Explosive atmosphere due to liquids misting out the flare; however, there were no standing liquids.

Areal Extent:

Off location (NW Corner to Jay Sandstrom location) - 400 ft x 150 ft

Potential Environmental Impacts:

Potential impacts to surrounding crops of the area due to a light mist traveling off location.

Action Taken or Planned:

Well was shut-in to prevent reoccurrence and pending investigation. Clean-up immediately began during the morning of 7/19 with affected soil being placed in a dumpster for future disposal. Any clean-up activity on affected crops will be at the landowner's discretion.

Wastes Disposal Location: Secure Energy

Agencies Involved: MHA, BLM, BIA, TAT Environmental
