

Oil Field Environmental Incident Summary

Incident: 20160926141437 **Date/Time of Notice:** 09/26/2016 14:14

Responsible Party: HESS BAKKEN INVESTMENTS II, LLC

Well Operator: HESS BAKKEN INVESTMENTS II, LLC

Well Name: JOHNSON 15-35H

Field Name: WHEELLOCK

Well File #: 18931

Date Incident: 9/25/2016 **Time Incident:** 17:00

Facility ID Number:

County: WILLIAMS

Twp: 156

Rng: 98

Sec: 35

Qtr: SE SW

Location Description:

Submitted By: Alberto Yates

Received By:

Contact Person: Troy Brunsell
1501 MCKINNEY
HOUSTON, TX 77010

General Land Use: Well/Facility Site

Affected Medium: Topsoil

Distance Nearest Occupied Building: 1.2 Mile

Distance Nearest Water Well: 1.2 Mile

Type of Incident: Treater Popoff

Release Contained in Dike: No

Reported to NRC: No

	Spilled	Units	Recovered	Units	Followup	Units
Oil						
Brine						
Other	29.3	Gallons			29.3	gallons

Description of Other Released Contaminant:

EMULSION

Inspected:

Written Report Received: 11/22/2016

Clean Up Concluded: 10/2/2016

Risk Evaluation:

There is no immediate risk to report at this time.

Areal Extent:

Approx. 29.3 gal of Emulsion was released impacting an estimated 435' x 210' area off Facility site.

Potential Environmental Impacts:

There are no potential environmental impacts to report at this time.

Action Taken or Planned:

The large portion of the release pooled up on top of the rain water near the storm water runoff trench on the SE corner of the location, which has been removed by a Vacuum Truck. The storm water runoff trench was isolated, isolated the Well, drained the fluid, and relieved the pressure from the Treater to stop the release from occurring. Arrangements were made for the impacted material to be cleaned up and disposed of to an approved waste facility.

Wastes Disposal Location: The recovered waste will be taken to an approved waste disposal facility.

Updates

Date: 9/26/2016 **Status:** Reviewed - Follow-up Required

Author: Stockdill, Scott

Updated Oil Volume:

Updated Salt Water Volume:

Updated Other Volume:

Updated Other Contaminant

Notes:

According to the incident summary, this spill impacted areas off of location. More follow-up is necessary.

Date: 10/3/2016 **Status:** Inspection

Author: O'Gorman, Brian

Updated Oil Volume:

Updated Salt Water Volume:

Updated Other Volume:

Updated Other Contaminant

Notes:

Arrived on location at 15:10. 72 degrees F, sunny, southeast wind 5-10 mph. Observed the area and took photos. It appeared that the heater/treater leaked and sprayed emulsion to the southeast of the well pad. Area between the well pad and road was native grassland that had recently been cut, and beyond the road was a harvested rye crop. The emulsion sprayed approximately 120 feet into the harvested rye crop. Further follow-up needed.
