Distance Nearest Occupied Building:

Type of Incident: Changing motor oil spill

Description of Released Contaminant: CenexTMS 15w/40 motor oil

Volume Spilled:

Ag Related: No

EPA Extremely Hazardous Substance: Unknown

Reported to NRC: Unknown

Cause of Incident:

Spill of motor oil while dumping used oil into storage tank for recycling.

Risk Evaluation:

of Fatalities:

of Injuries:

Affected Medium:

Potential Environmental Impacts:

Action Taken or Planned:

Soil excavated, hauled to asphalt plant for disposal
Investigation report completed by Vieau Associates Inc.

Wastes Disposal Location: Northern Improvement asphalt plant, Bismarck, ND

Agencies Involved:

Updates

Date: 11/30/2013 **Status:** Reviewed - Follow-up Required

Author: Roberts, Kris

Updated Volume:

Notes:

Date of incident vs. date of report needs verification. Spill of used motor oil reportedly cleaned up. Followup is necessary to determine details and timeline.

Date: 12/3/2013 **Status:** Correspondence

Author: Miller, Adam

Updated Volume:

Notes:

Contacted Jon Ronsberg via telephone to ask about date of incident versus date of reporting discrepancy. Jon stated they were going to build a shop on the property and had ordered a Phase II environmental analysis because of oil staining in the area that had resulted from leaked used motor oil over a long period of time. A copy of the Phase II assessment is in the file folder. The incident date was assigned; it was not actually the date the spill occurred. The contaminated soil has been excavated and is scheduled for disposal.
