Type of Incident: Impacted soil found during ESA

Description of Released Contaminant: NPK Fertilizers

Volume Spilled:

Ag Related: No

EPA Extremely Hazardous Substance: No

Reported to NRC: No

Cause of Incident:

Likely, incidental drips and spill to bare ground during product transfer.

Risk Evaluation:

None - No immediate risk were identified during the ESA.

of Fatalities:

of Injuries:

Affected Medium: 03 - soil

Potential Environmental Impacts:

Impacts expected to be limited to soil, due to the distance to any surface waters and depth to ground water.

Action Taken or Planned:

Planned action includes removal of the nitrogen impacted soil that was found within the earthen tank farm and loading pads, and agronomic application to farmground prior to the spring planting. A copy of the ESA and the excavation plan has been emailed to Carl Anderson at the NDDHS for review. The ESA was conducted for Wilbur-Ellis prior to purchasing the New Horizon Ag facility. Since Wilbur-Ellis is the current owner and EHS is the one leading the clean up effort please send emails directly to Jan Thompson at Wilbur-Ellis.

Wastes Disposal Location: The nitrogen impacted soil will be applied to farmground at an agronomic rate, no waste will be generated.
