Type of Incident: Tank Leak

Description of Released Contaminant: yellow corn syrup

Volume Spilled: 4000.00 gallons **Ag Related:** Yes

EPA Extremely Hazardous Substance: No **Reported to NRC:** Unknown

Cause of Incident:

Tank trailer cracked open slightly leaking yellow corn syrup out at about 5 gallons per minute

Risk Evaluation:

no health risks.

of Fatalities: 0 **# of Injuries:** 0 **Affected Medium:** 03 - soil

Potential Environmental Impacts:

There would be very little impact if any to the soil and or future soil contamination

Action Taken or Planned:

the leaking syrup was allowed to run into the north ditch (leaking approx 5 gallons per minute). A local contractor dumped sand in the ditch to prevent this syrup running down any further into the sheyenne river. Although the river was downstream about 600 yards.

Wastes Disposal Location: The syrup was pumped out into another tank and delivered to a local farmer who would use it for livestock; which it is meant for.

Agencies Involved: Local Emergency Manager

Notes:

Scherbenski and Sons, Inc. cleaned up the Valley City site and hauled everything to the landfill in Valley City. They removed everything from the ditch and put down a couple loads of top soil. The cleanup was confirmed by Dennis Fewless on April 13, 2014, and a phone call was made by Mike Hargiss to the responsible party to confirm the cleanup was complete and satisfactory.
