According to the report, 500 gallons of liquid fertilizer were released onto soils in the area. More follow-up needed.

Date: 5/19/2016 **Status:** Inspection

Author: Stockdill, Scott

Updated Volume:

Notes:

Arrived on location 12:42, 5/19/2016.

Spoke with responsible party. The impacted soil has been excavated and removed. There is a small 20- by 20-ft area where nothing is growing. Spill issue has been addressed. Impacted soil has been spread on field for beneficial use.

No follow-up is necessary.
