

MEMO

TO: Early Child Care Providers
FROM: Jenny Galbraith
Immunization Surveillance Coordinator
RE: Early Child Care Immunization Survey
DATE: February 6, 2019

****If you are no longer a child care provider, please disregard this memo.**

In accordance with North Dakota Century Code 23-07-17.1, children attending child care and early childhood facilities are required to be up to date on immunizations against certain diseases. Child care and early childhood facilities are also required by law to report immunization information on children to the North Dakota Department of Health Immunization Program through the child care immunization survey.

The immunization survey may be filled out online at the following link:

https://ndhealth.co1.qualtrics.com/jfe/form/SV_bQUB6Dyk9FWcFEh

If you are unable to complete the online survey, the attached **Immunization Summary Form** (2 pages) may be completed and faxed or mailed back to the North Dakota Department of Health:

Jenny Galbraith
North Dakota Department of Health
Division of Disease Control
2635 East Main Ave, PO Box 5520
Bismarck, ND 58506-5520
Fax #: 701-328-2499

Please complete the online survey or attached immunization summary form before March 8, 2019.

Do not include children attending public or private school in grades kindergarten through 12 when completing the immunization survey. There are no required immunizations for children ages 0-2 months in North Dakota, so this age group is not included in the survey.

Enclosed you will find the Immunization Summary Form, along with other resources that may be helpful to you in completing the survey and ensuring your children are up to date on immunizations. All of these documents and a link to the survey are also available on our website: www.ndhealth.gov/Immunize/Schools-ChildCare/.

For any questions regarding the survey, please call Jenny Galbraith at 701.328.2378 or toll-free 1.800.472.2180.

Introduction to NDIIS

Brief Overview

The North Dakota Immunization Information System (NDIIS) is a confidential, population-based, computerized information system that collects vaccination data about all North Dakotans. Most North Dakota children have an immunization record in the NDIIS. Children vaccinated at U.S. Air Force Bases and out-of-state may not have a complete record in the NDIIS.

Licensed child cares have the option of having read-only access to NDIIS. This means they can access the immunization records of their children, but they cannot enter information into the system. If your institution would like to gain access to NDIIS, contact a member of the Immunization Program at 701.328.3386 or toll-free at 800.472.2180. For more information about NDIIS, please visit our website at www.ndhealth.gov/immunize.

NDIIS Forecaster

NDIIS contains a tool that allows users to determine whether or not a child is up to date on immunizations. Child cares can use this tool to determine if the child meets the immunization requirements. The vaccine forecaster will generate a list of vaccines the child is due for or will be due for in the future. Be sure to check that the recommended date has passed, as the forecaster recommends doses due in the future, not only vaccine doses that are past due. Also, the forecaster will show all recommended vaccines, not only those required for child care entry. Be sure to check the vaccination requirements.

Vaccination Forecast

Vaccine Type	Dose Number	Recommended Date	Minimum Valid Date

Template letter: Send to parents of children who have not submitted an immunization record or are not up to date on all required vaccinations, along with Certificate of immunization.

To the Parent or Guardian of _____

North Dakota State Law requires all children in child care be up to date on certain vaccinations.

Our records show that your child is not compliant with the requirements. Non-compliance may be due to absence of an immunization record or because your child is in need of an immunization. The reason for your child's noncompliance is noted below.

In order to meet the requirements, please submit an official certificate of immunization to the school. If vaccinations are added or if you are claiming a medical or history of disease exemption, the form must be signed by a medical professional.

Reason for noncompliance:

- Our facility does not have a copy of your child's immunization record.
- Your child needs the following circled vaccines:
 - MMR*
 - Varicella (chickenpox)*
 - Hepatitis A*
 - Hepatitis B*
 - Rotavirus
 - Hib (*Haemophilus influenzae*)
 - Polio
 - PCV (Pneumococcal)
 - DTaP

* If your child has had a history of disease, please have a health care provider enter the date of illness on the attached form in the history of disease section and sign.

Please note, not all recommended vaccines are required for child care. There may be additional immunizations recommended for your child that are not listed here because they are not mandated by state law. Please contact your child's health care provider about other immunizations your child may need.

Thank you so much for your cooperation.
