Measles, Mumps, Rubella (MMR)						MMR #1				MMR #2					
Varicella (Chickenpox)						Varicella #1				Varicella #2	Varicella series for children not previously vaccinated.				
Hepatitis A						Hep A #1		Hep A #2	Hepatitis A series for children not previously vaccinated						
Influenza				Influenza (yearly for all children 6 months – 18years)											
HPV (Gardasil®)											#1: Now #2: 2 mo. #3: 6 mo.	If not given at age 11 - 12 years			
Meningococcal (Menactra®)											MCV4**				

*If a child receives Rotateq® (3-dose rotavirus vaccine) for the first or second dose in the rotavirus series, then three doses of rotavirus vaccine are needed.

**With the exception of college freshman, children at continued high risk who received the first dose of MCV4 at ages 2 through 6 should receive the second dose at least 3 years after the first. People at continued high risk who received the first dose of meningococcal vaccine at age 7 or older should receive the second dose at least 5 years after the first.

This schedule is to be used as a guide in vaccinating children with vaccines provided by the North Dakota Immunization Program. Please refer to the CDC Recommended Childhood and Adolescent Schedule for more detail and for the catch-up schedule. Please contact the Immunization Program at 800.472.2180 with any questions about vaccine availability or the schedule.
