Vaccines for Children/AFIX Coordinator

RE: State-Supplied Vaccine Update

DATE: September 20, 2010

Due to manufacturer supply issues at McKesson, the North Dakota Department of Health (NDDoH) is unable to obtain Kinrix®, the DTaP/IPV combination vaccine, for Vaccines for Children (VFC) eligible children until the end of October.

Providers should refrain from ordering Kinrix® from the NDDoH until further notice.

Orders for Kinrix® placed through the NDDoH after Tuesday, September 14 will not be filled. Providers who have ordered state-supplied Kinrix® since September 14 may order separate single-antigen DTaP and IPV.

Please feel free to contact the NDDoH Immunization Program with any questions or concerns at 701.328.3386 or toll-free at 800.472.2180.
