Setting up Internet Favorites Link to NDIIS Login – Internet Explorer

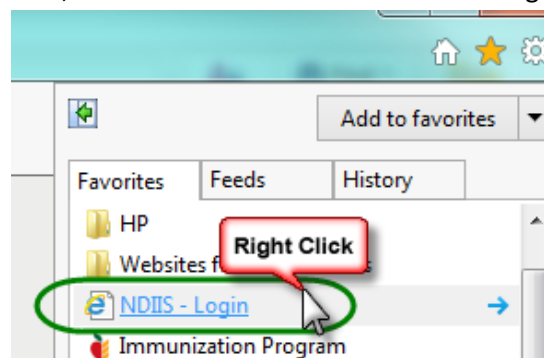

1. Open your internet explorer browser
2. Type the NDIIS login URL in the web address field (<https://www.ndiis.org>)
3. When you are on the NDIIS login page, click your Favorites icon
4. Click “Add to Favorites”

5. When the Add a Favorite box pops up, enter a new name for the favorite link and then click Add

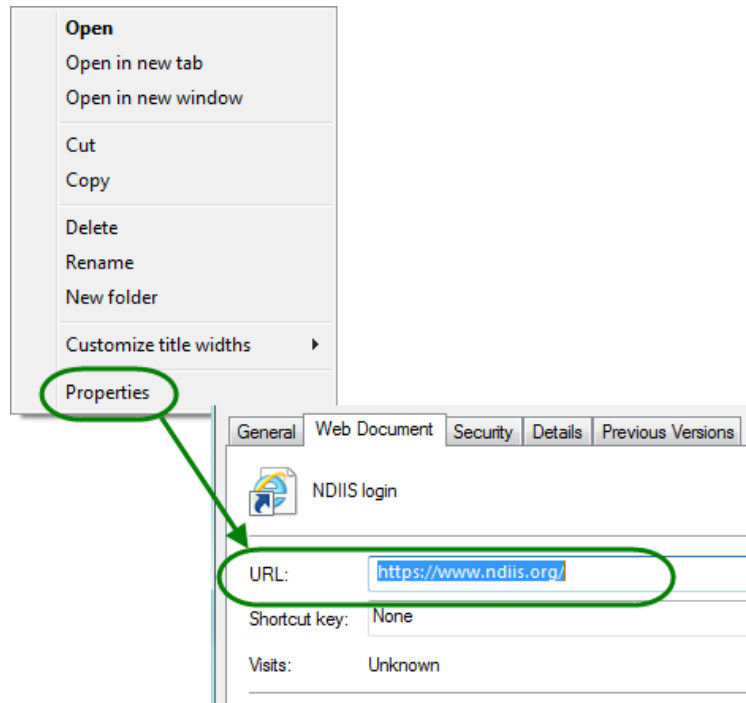

6. After adding the link, find the link in the Favorites list and right click on the link

7. Click on Properties

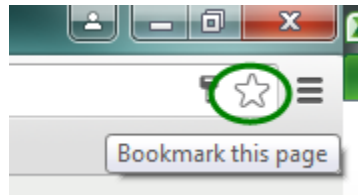

8. Click on the Web Document tab. Enter the NDIIS URL in the URL field. Apply the change.

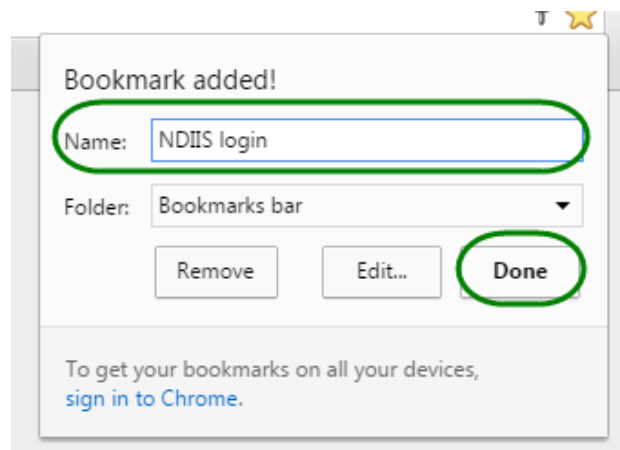

9. Test the Favorite link to ensure that it works by closing your internet browser window, opening a new browser and using your new favorite link to get to the NDIIS login page. If the page opens and you are able to successfully log in, the link works.

Setting up Internet Favorites Link to NDIIS Login – Google Chrome

1. Open your Google Chrome browser
2. Type the NDIIS login URL in the web address field (<https://www.ndiis.org>)
3. When you are on the NDIIS login page, click your Bookmarks icon to create the favorite link

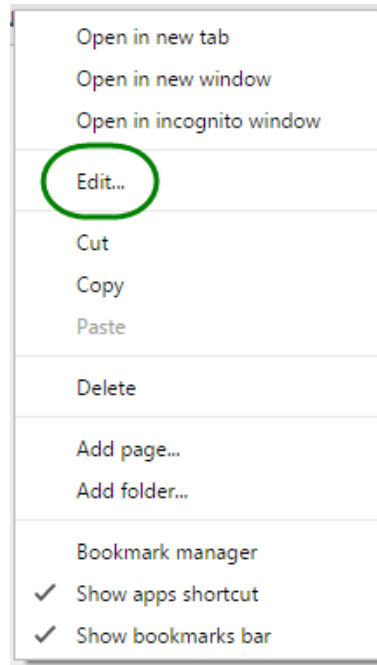

4. When the Bookmark added! box pops up, enter a new name for the favorite link and then click Done

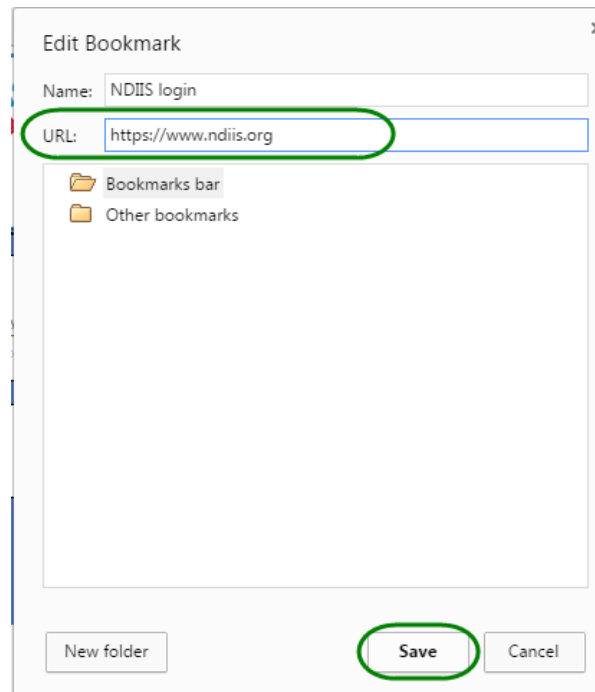

5. After adding the link, find the bookmark and right click on the name

6. Click on Edit

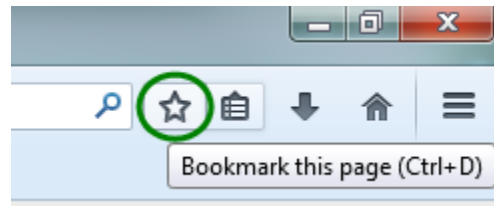

7. In the Edit Bookmark window, enter the NDIIS URL in the URL field and click Save.

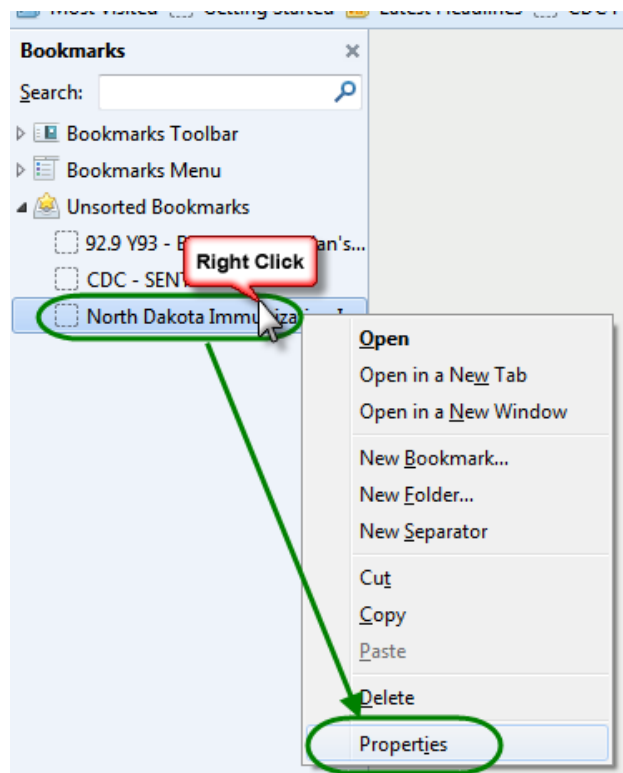

8. Test the Favorite link to ensure that it works by closing your browser window, opening a new browser and using your new favorite link to get to the NDIIS login page. If the page opens and you are able to successfully log in, the link works.

Setting up Internet Favorites Link to NDIIS Login – Firefox

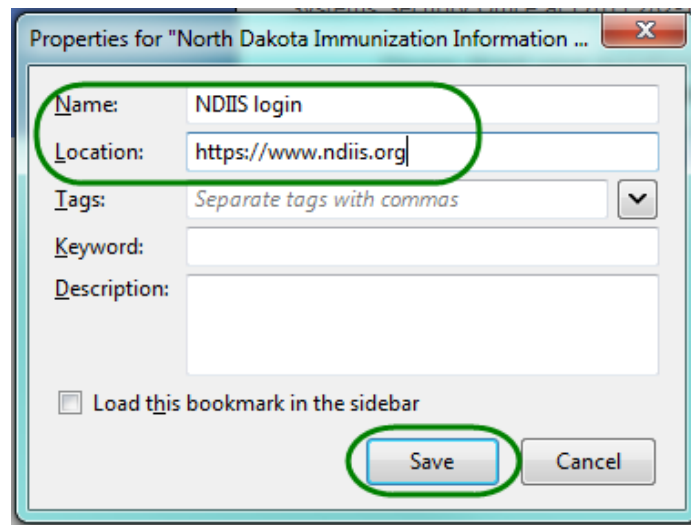

1. Open your Mozilla Firefox browser
2. Type the NDIIS login URL in the web address field (<https://www.ndiis.org>)
3. When you are on the NDIIS login page, click your Bookmarks icon to create the favorite link

4. Find the new bookmark and right click on the name and select Properties

5. In the Properties window, update the name of the bookmark, enter the NDIIS URL in the Location field and click Save.

6. Test the Favorite link to ensure that it works by closing your browser window, opening a new browser and using your new favorite link to get to the NDIIS login page. If the page opens and you are able to successfully log in, the link works.

Setting up Internet Favorites Link to NDIIS Login – Apple Safari

1. Open your Safari browser
2. Type the NDIIS login URL in the web address field (<https://www.ndiis.org>)
3. When you are on the NDIIS login page, click on Bookmarks from the menu bar
4. Select “Add Bookmark”
5. In the Add this page to: dialog box, enter the name for your bookmark and click Add
6. Right click on the bookmark and select “Edit Address”
7. Enter the NDIIS URL in the pop-up box and click Done
8. Test the Favorite link to ensure that it works by closing your browser window, opening a new browser and using your new favorite link to get to the NDIIS login page. If the page opens and you are able to successfully log in, the link works.
