

# *Final Snowcard*

<i>Organization Represented</i>	<i>Level of Involvement Indicated</i>	<i>Individual Level of Involvement Indicated</i>
<i>319th Medical Group - GFAFB</i>	<p>somewhat involved</p> <p>Interested in incorporating your well wellness plan into our existing program to benefit our civilian population.</p>	<p>very involved</p> <p>interested in sharing our health and wellness experience from the Air Force program with the state at large.</p>
<i>AARP of ND</i>	<p>somewhat involved</p> <p>To the extent that this work ties in to our national and state organization priorities....we currently have pilot projects in conjunction with RWJ Foundation related to increasing physical activity for people 50+.</p>	<p>not involved</p> <p>work, school, church, obligations currently fill my available time.</p>
<i>AHA</i>	<p>very involved</p> <p>Participation in any way: planning, implementation, re-aligning how voluntary health orgs do their work, use resources</p>	<p>very involved</p>
<i>American Academy of Pediatrics</i>	<p>very involved</p> <p>As a group of pediatricians from across the state, I fell our organization would be able to access also what's in our loca community and work with other community members in developing this.</p>	<p>very involved</p> <p>I would be very interested in helping out in the ways I can ir developing this.</p>
<i>American Cancer Society</i>	<p>very involved</p> <p>We may have resources, staff expertise that would be helpft.</p>	<p>very involved</p> <p>I see this as a vital role in my director position as Executive Director of ACS.</p>

<i>Organization Represented</i>	<i>Level of Involvement Indicated</i>	<i>Individual Level of Involvement Indicated</i>
<i>American Diabetes Association/N</i>	<p>somewhat involved</p> <p>We are under a mandate to focus on just our disease, but there are so many connections between various health conditions (mostly both chronic and preventable!) that it is a shame there is not total support for extensive networking with other disease groups.</p>	<p>very involved</p> <p>I personally am enthusiastic about this undertaking and encouraged by all the bright people we have in our state.</p>
<i>American Heart Association</i>	<p>very involved</p> <p>AHA as a resource. Scientific information/program that address the risk factors that are modifiable for prevention of cardiovascular disease and stroke. Also the information for disease and risk management can be used and is available of all educational levels. AHA is active on the state and national level for policies to impact health and wellness of all ages of Americans</p>	<p>very involved</p> <p>June Herman is on planning committees as a representative of AHA as a health partner for AHA programs and information. The issues that are legislative such as smoking, Chain of Survival and other wellness policies are aggressively monitored in the legislature for the health of North Dakotans.</p>
<i>American Lung Association of N</i>	<p>very involved</p> <p>We would like to provide guidance and support. Our goals match up to CDC 2010 on the tobacco issue.</p>	<p>somewhat involved</p>
<i>BCBSND</i>	<p>very involved</p>	
<i>Chairman Hall's Office Three Affi</i>	<p>very involved</p> <p>Developmental to implementation to follow up! Direct involvement in all aspects of this initiative! To ensure political support of this initiative continues.</p>	<p>very involved</p> <p>With some experience of working at national and international levels, this may be useful and helpful to successful partnering - particularly among Native Americans. Because health is a life long journey that we're part of.</p>
<i>DHS</i>	<p>very involved</p> <p>Mental Health and Substance Abuse Prevention as a key part of an overall plan</p>	<p>very involved</p> <p>However I can be helpful.</p>

<i>Organization Represented</i>	<i>Level of Involvement Indicated</i>	<i>Individual Level of Involvement Indicated</i>
<i>DoH Health Promotion</i>	<p>very involved</p> <p>Since all Health Promotion Programs address the leading chronic diseases and accompanying risk factors, I see the division along with program managers as being very involved with the process.</p>	<p>very involved</p> <p>As Division Director, would like to be involved with planning and oversight of the process.</p>
<i>Extension</i>	<p>very involved</p> <p>Extension could provide leadership for community involvement. Extension could be involved with development of education programs for nutrition/physical activity components.</p>	<p>very involved</p> <p>Currently forming a task force to determine extension focus for childhood obesity prevention.</p>
<i>Grand Forks Human Nutrition &amp;</i>	<p>very involved</p> <p>Help develop the Dakota Diet; evaluate the Dakota Diet clinically such a diet/lifestyle plan; conduct other specific studies related to health and nutrition assessment-particular in rural areas and among Indian populations.</p>	<p>very involved</p> <p>I would like to participate in state-wide planning.</p>
<i>Grand Forks Public Health Depa</i>	<p>somewhat involved</p> <p>Grand Forks has completed 2 years of community assessment with regard to school environments. With a great deal of knowledge through assessment, and "environments policy" has been developed, and will soon be adopted for the state to look at "best practices" and team together for a statewide nutrition environments policy.</p>	<p>somewhat involved</p>
<i>Health Department</i>	<p>very involved</p> <p>Health Department may be one of the lead agency in some objectives.</p>	<p>somewhat involved</p> <p>depends on emphasis on youth.</p>
<i>Indian Health Service</i>	<p>very involved</p> <p>In the development of the wellness plan and the implementation.</p>	<p>somewhat involved</p> <p>I would be involved at the local level with the people that I work with.</p>

<i>Organization Represented</i>	<i>Level of Involvement Indicated</i>	<i>Individual Level of Involvement Indicated</i>
<i>Lung Disease and Infection Cons</i>	<p>very involved</p> <p>Buy in is key to changing people. Buy in is best when there is direct person- to person interaction from credible sources.</p>	<p>"Tell- Ten" would be a focused circular, low cost, person to person methodology with a built in multiplier to spread scientific and other principles for change towards a healthie North Dakota. Please e-mail me at vinseth@aol.com and I would be happy to give the details. In short, "tell ten" works this way: develop sound bites- summarize the science-get health care professional buy in of their choice of sound bite: they start "tell ten" and tell patients, families, students and others in the community. Each of them tells ten more in their circle and so on..... Thanks.</p>
<i>Medical Services</i>	<p>somewhat involved</p>	<p>somewhat involved</p>
<i>Minot State University student</i>	<p>somewhat involved</p> <p>I'm here on my own, so I'm not sure what authority I have. I love to help in anyway I could, though.</p>	<p>very involved</p> <p>I love this state and I would be really willing to help make North Dakotans healthier.</p>
<i>N/A</i>	<p>N/A</p>	<p>very involved</p> <p>Improve maternity outcome while reducing costs. Create a world-class maternity care program using standards from countries that have the lowest infant mortality/morbidity rates. Tap into mothers and providers of daily healthcare. can offer international network and resources.</p>
<i>ND Dept of Health</i>	<p>very involved</p> <p>It's a given!</p>	<p>somewhat inv involved</p> <p>My plate is already overflowing and I'm not sure I can or wa to drop one more thing on it.</p>

<i>Organization Represented</i>	<i>Level of Involvement Indicated</i>	<i>Individual Level of Involvement Indicated</i>
<i>ND Dept of Human Services - Exe</i>	<p>very involved</p> <p>A healthier North Dakota can help reduce healthcare expenses in Medicaid/SCHIP and other DHS programs. Cabinet level involvement? (Carol Olson or designee)</p>	<p>somewhat involved</p> <p>I have expertise in outreach and communication/public relations. I would be pleased to help assure plan initiatives are communicated so that key behavior changes among target populations can begin.</p>
<i>ND DoH</i>	<p>very involved</p> <p>I truly hope the NDDoH takes the lead in developing a worksite wellness plan. The NDDoH need to be a role model for the rest of the state.</p>	<p>very involved</p>
<i>ND DoH</i>	<p>very involved</p>	<p>somewhat involved</p>
<i>ND DoH Tobacco Prevention and</i>	<p>very involved</p> <p>putting the meat on the skeleton-bone plan, etc.</p>	<p>very involved</p>
<i>ND DPI Child Nutrition Program</i>	<p>somewhat involved</p> <p>with one of the ten objectives, with school nutrition, our office would want to be involved</p>	<p>somewhat involved to very involv</p> <p>coordinating efforts with child care nutrition, school nutrition and summer nutrition. Any assistance I can provide in these areas - please let me know</p>
<i>ND Head Start State Collaborativ</i>	<p>very involved</p> <p>Contact with the ND Head Start Association would be an important local community and statewide link.</p>	<p>somewhat involved</p>
<i>ND Healthcare Association</i>	<p>somewhat involved</p>	<p>somewhat involved</p>

<i>Organization Represented</i>	<i>Level of Involvement Indicated</i>	<i>Individual Level of Involvement Indicated</i>
<i>ND Local Public Health Administ</i>	<p>very involved</p> <p>We have helpful expertise in public health and public health programs in the areas of health promotion, prevention and protection. Healthy North Dakota objectives could be implemented as enhancements to current programming. Public Health is a community collaborator with many local agencies /groups/coalitions that can help in addressing and implementing a statewide wellness plan- community wide.</p>	<p>very involved</p> <p>Currently in our District Health Unit we are involved with wellness activities with collaboration of local groups/agencies/coalitions.; 5 Plus 5 Coalition is organized and active in our community; believe in the importance for a healthier community.</p>
<i>ND Nurse's Association</i>	<p>very involved</p> <p>Nurses play probably the most significant role in health education. After people leave "sick care hospitals" they will often turn to the neighborhood nurse. We provide education about meds, treatments and procedures. More importantly we provide a huge amount of time in health counseling and prevention education as well as referrals to the most cost-effective and appropriate level of care.</p>	<p>very involved</p> <p>I firmly believe that the future of ND, from an economic stand point, rests with developing a comprehensive "plan". I believe as a nurse I have a vast array of experiences as a nurse, administrator, and consumer that would be beneficial in developing this plan.</p>
<i>ND Pharmaceutical Association</i>	<p>very involved</p> <p>Pharmacies are a natural place for distribution of wellness information and wellness alternatives and prevention in lieu of or as an adjunct to medications. Involvement depends upon the thrust of plan development and potential role for ancillary organizations such as ours.</p>	<p>very involved</p> <p>I would be involved as an advocate for market-based program that puts some sizzle in the concept. Existing models have not worked and a new focus has to be established.</p>
<i>ND Public Health Directors of N</i>	<p>very involved</p> <p>bringing dental access to Medicaid and uninsured; public health focuses on prevention; public health involved in education; public health focuses on healthy lifestyle choices; public health is working with tobacco prevention and cessation.</p>	<p>very involved</p> <p>public health collaborates with</p>

<i>Organization Represented</i>	<i>Level of Involvement Indicated</i>	<i>Individual Level of Involvement Indicated</i>
<i>ND Society for Respiratory Care</i>	<p>very involved</p> <p>Since tobacco use is the #1 actual cause of death in ND/US, we, as respiratory therapists, that deal with patients who suffer from the devastating effects of smoking are very interested in being involved. It is vital that the wellness plan involve a comprehensive approach to decrease youth access/use, adult use, increase smoke-free environments fo all North Dakotans!</p>	<p>somewhat involved</p> <p>I would like to be as involved as physically possible as a full time educator and leader of a professional association can be.</p>
<i>NDDHS- Medical Services</i>	<p>very involved</p>	<p>very involved</p>
<i>NDDoH</i>	<p>Our division will be as involved as directed by the Health Officer and Governor.</p>	<p>very involved</p>
<i>NDDoH</i>	<p>very involved</p>	<p>I would personally like to be involved - now from a state dep perspective and experience in community/worksite planning</p>
<i>NDDoH</i>	<p>very involved</p> <p>contribute staff time and resources to the plan</p>	<p>very involved</p> <p>Implement individual goals and be involved as Dept. staff</p>
<i>NDDoH</i>	<p>very involved</p>	
<i>NDMA</i>	<p>very involved</p>	<p>very involved</p>

<i>Organization Represented</i>	<i>Level of Involvement Indicated</i>	<i>Individual Level of Involvement Indicated</i>
<i>NDSU Extension Service</i>	<p>very involved</p> <p>It's hard to answer this without administrative approval. As a whole, the organization can assist with people power and local expertise to help implement certain aspects of the plan at the local level.</p>	<p>very involved</p> <p>I work with the 5 Plus 5 Communities and ND Healthy Hear Council, which I think should be part of the overall plan. I also can serve as a connection between the state group and local partners.</p>
<i>NDWC</i>	<p>somewhat involved</p> <p>would have to discuss with management</p>	<p>somewhat involved</p> <p>I would volunteer</p>
<i>North Dakota Cancer Coalition ((</i>	<p>very involved</p> <p>A) The priorities identified by NDCC include: 1) Prevention of Cancer 2)Early Detection and treatment of cancer. Both have a major impact on wellness. B) Trinity Health is the Primary Health care provider in NW ND and as such in part is the vehicle to help with wellness in our region.</p>	<p>very involved</p> <p>As a cancer physician, every day I promote cancer prevention, early detection, and would like to see it "blossom" across our state.</p>
<i>North Dakota Dietetic Associatio</i>	<p>very involved</p> <p>Through NDDA, there is access to over 300 registered dietitians throughout the state who could be instrumental in implementing plans at the local level. ____ members expert at planning and development levels.</p>	<p>very involved</p> <p>have nutrition knowledge, research, etc.</p>
<i>North Dakota Nutrition Council (</i>	<p>TBD</p> <p>I will take this information to the NDNC board; they will very likely choose to be involved, but to what extent, I do not know.</p>	<p>very involved</p> <p>The work I do each day currently is involved in several of the goals identified as being important to North Dakotans. Staff members across the state deliver nutrition education to some of our state's most vulnerable citizens.</p>
<i>North Dakota Public Health Asso</i>	<p>very involved</p> <p>Communication link to members; workgroups on particular issues across the state; expertise of retired members.</p>	<p>very involved</p> <p>I would be willing to work on taskforce statewide. I would like to develop worksite wellness for groups within my service area. (ex. County employees, businesses)</p>

<i>Organization Represented</i>	<i>Level of Involvement Indicated</i>	<i>Individual Level of Involvement Indicated</i>
<i>Northland Healthcare Alliance</i>	very involved a. Community development.	very involved
<i>Physical Therapy Association</i>	very involved Provide expertise as exercise specialists at state and community level; promote health screening local communities-share previous screening and educational programs with task force; use of "grass roots" communication network with state officials to endorse Healthy North Dakota	very involved As a member of the Physical Therapy faculty at UND- coordinate activities (research and expertise) both on campus and with the ND Physical Therapy Association; Student activities at local and state level to promote healthy lifestyle- set up model for professional college students to return to home high schools and grade schools to promote healthy lifestyles.
<i>Private fitness/hospital wellness</i>	very involved I would love to be very involved-hospital constraints regarding productivity/time away / \$ / are tough - but want to help out any way I can.	very involved These topics/concerns are a personal passion of mine. I would be willing to work on task force teams- anything I can do- very willing to help as a public speaker on fitness/ nutrition/ motivation topics.
<i>Public Health Service, Region VII</i>	somewhat involved	
<i>St. Aloisius Medical Center</i>	somewhat involved We will discuss with management team and as opportunities arise we could impact as our time	very involved I personally would like to do as much as I would be needed I would like to serve: I think this is a very valuable program Great job!
<i>UND</i>	very involved	very involved
<i>UND _____</i>	very involved	very involved

<i>Organization Represented</i>	<i>Level of Involvement Indicated</i>	<i>Individual Level of Involvement Indicated</i>
<i>UND CHPTR Program (Rural He</i>	<p>very involved</p> <p>Currently developing pilot programs/studies to present empirically validated health programs, so as to gain funding and implement them in ND.</p>	<p>very involved</p> <p>involvement in above- _____ of knowledge and resources gained here - influencing those I know and work with, being healthy</p>
<i>UND College of Nursing</i>	<p>somewhat involved</p> <p>Increase wellness curriculum content; have a broad health perspective</p>	<p>somewhat involved to very invol'</p> <p>Would like to ensure that there is a holistic approach to wellness - not just the absence of disease model</p>
<i>UND Dept of Nutrition and Diete</i>	<p>very involved</p> <p>We can provide expertise in nutrition knowledge and program planning, research.</p>	<p>very involved</p> <p>as noted earlier</p>
<i>UND Dept of Wellness</i>	<p>very involved</p> <p>Although we are a new dept., we have developed relationships with academic programs that could provide crucial expert information on formation and implementation of this initiative. Our specific area of expertise would be in Health Risk Assessment and physical fitness. We are in the process of developing a preventative screening model for campus.</p>	<p>very involved</p> <p>I can commit time and expertise on development of a statewide HRA. I would be happy to assist in any way that would bring about benefit to the state and our people.</p>
<i>UND School of Medicine and He</i>	<p>very involved</p> <p>As director of primary prevention in our new center for Health Promotion, I (we) are directly and intensely involved in research, implementation and evaluation of health promotion programs, especially smoking and obesity prevention programs. We will be able to make a significant contribution.</p>	<p>very involved</p> <p>As director, my individual efforts would be significant in terms of administering and content expertise contributions.</p>

<i>Organization Represented</i>	<i>Level of Involvement Indicated</i>	<i>Individual Level of Involvement Indicated</i>
<i>USDA, _____ GF Human Nutritio</i>	<p>very involved</p> <p>Extension could provide leadership for community involvement. Extension could be involved with development of education programs for nutrition/physical activity components.</p>	<p>very involved</p> <p>planning and execution</p>
<i>West River Health Systems</i>	<p>very involved</p> <p>Complex...Ask John Joyce! Suzi dittos. Thanks, John!!</p>	<p>very involved</p>
