Welcome to the 2016-2017 North Dakota School Immunization Assessment. North Dakota Administrative Code (33-06-05) requires schools to complete the 2016 – 2017 School Immunization Survey. The survey must be submitted online no later than **November 18, 2016**.

Please choose the school you are completing the survey for and complete the required immunization information.

All fields require an answer, so make sure to complete each field.

The school immunization requirements for the 2016-2017 school year can be found [here](#).

Instructions for the survey can be found [here](#).

*****CHANGES**: This year, we are asking you to ***report your homeschooled students separately*** from the rest of your students. You will be able to select which grades your homeschooled students are in. Then, for each grade selected, the first question will ask about students attending school. The next question will be for your homeschooled students. In addition, moral and philosophical exemptions will be combined and reported as personal belief exemptions.

If you run into any issues, please call Lexie Barber at (701) 328-2335 or email at abarber@nd.gov.

Thank you for completing the survey!

Choose your school (if your school is not available, please select 'other' and type in your school in the following text box):

Is your school private or public?
