- 4 years old and up!

Evenflo

- Coming soon...Big Kid Advanced Booster
- To be phased out in future:
 - Generations
 - Chase/Express
 - Momentum

Evenflo

- **SureLATCH**
 - 2 independent retractors integrated with quick-connectors
 - Makes installation as easy as Click, Click, Push!
- **TruTether** (Symphony seat only)
 - Shows green when properly tensioned!
 - Now offering visual feedback to Moms!

Evenflo

- LATCH Manual page 108, move Evenflo from no to yes column for non-standard lower anchor installation (retroactive)
- Retro active- may use LATCH w/ boosters if it doesn't interfere w/ SB use.
- Don't use air bag seat belt with Evenflo seats.
- Don't put air bag seat belts behind installed seats (when using LATCH) either

Evenflo

- Future, may not see expiration dates in mold of seat, will be on sticker- 6 years from "birth"
- As per the 2011 LATCH manual:
Max. weight for lower attachments: 
Lower anchors can be used up to vehicle manufacturer's recommended weights or 48 lbs.

Evenflo

- Remember infant seats need to be 1 ½ inches away from front seats- for clearance in a crash
- Tether extenders are always available if needed, call Parent Link
- Locking clip instruction confusion- you can use switchable
- Remember, 3 handle positions! ☺
