

# 2010

## NATIONAL STANDARDIZED Child Passenger Safety Training

### Course Information

This training provides the basic technical skills, experience and knowledge about the proper use and installation of child car seats that are needed when working with parents and caregivers with child passenger safety needs.

### Course Content

This training will provide participants with the technical skills to:

- Identify and correct misuse of car safety seats.
- Serve as a community child passenger safety resource and participate in car seat checkups.
- Educate others about child passenger safety issues.
- Reduce potential liability through standardization.
- Receive knowledge and skills to meet national certification.

The training is taught through a combination of lectures, hands-on practice, role-playing, and written and hands-on skills testing and concludes with a real-world community car safety seat checkup.

### Who Should Attend?

- Law Enforcement Personnel
- Emergency Medical Personnel
- Nurses
- Health-Care Professionals
- Child-Care Providers
- Car Dealership Personnel
- Physical Therapists
- Firefighters
