

Certified Child Passenger Safety Technician Workshops
Interactive Video Conferencing
11:00 am to 1:00 pm

February 12, 2008
April 22, 2008
July 29, 2008
October 21, 2008

Please reserve your calendars...

In 2008, the North Dakota Department of Health, Child Passenger Safety Program will be conducting 4 two-hour child passenger safety certification workshops through interactive video conferencing.

The workshops are offered to certified child passenger safety technicians who have attended the 32-hour certification course. The workshops will cover a wide range of child passenger safety topics. The goal of these workshops is to bring certified technicians up-to-date on best practice methods for buckling up children. Child passenger safety technician continuing education units and nursing contact hours will be available for these trainings.
