

Replacement Registry Identification Cards:

To request a replacement ID card for the Medical Marijuana Program, please contact the Division of Medical Marijuana via phone at **701.328.1311** or via email at medmarijuana@nd.gov. If sending email notification, it would be beneficial to enter “replacement card” in the subject line.

If your card has been **lost**, per state law, you must notify the Division in writing (email will suffice) within 24 hours from when you became aware of the situation.

All other replacement card reasons, including a name change, must be submitted to the Division within 10 calendar days of the change.

Replacement card fees are as follows:

| Fee Amount | Reason for Replacement |
|------------|---|
| \$25 | Lost card (cardholder) |
| \$5 | Name change or other replacement reason |

***Please note, if a card is replaced for a patient and they have a designated caregiver, the designated caregiver’s card must also be replaced (and vice versa). This would fall under the “other replacement reason” category.**

Replacement cards will not be issued until the appropriate payment has been received.

The Division will issue a replacement ID card within 20 calendar days after approval of the updated information. The replacement card will have a new 10-digit barcode number.
