Re: Regional Haze Contacts

Dear Mr. Cronin:

The North Dakota Department of Health is in the process of preparing a State Implementation Plan (SIP) to reduce the impact from regional haze in the Class I areas of the North Dakota. The Department has been involved with the Western Regional Air Partnership (WRAP) which serves as the coordinating body for the consultation process in the development of the SIP. The North Dakota Department of Health would like to provide you the opportunity to participate in our SIP development process.

Enclosed is a list of the contacts within the Department of Health who are involved in the North Dakota SIP development process. We encourage you to share this letter with any tribe that wishes to coordinate with the Department in the development of North Dakota's regional haze SIP.

If you have any questions regarding the SIP preparation or schedule, please feel free to contact Dana Mount at (701)328-5150.

Sincerely,

Terry L. O'Clair, P.E.  
Director  
Division of Air Quality
