Disclaimer
The content within this booklet is for informational purposes only. It is not intended to be a substitute for professional medical advice. Families are encouraged to discuss the information in this booklet with their child's doctor or other health-care providers.
Expert care for children with diabetes can often best be managed using a team approach. The links below provide information and offer suggestions for the care of children with diabetes.
http://care.diabetesjournals.org/content/34/Supplement_1

**Diabetes Clinics and Programs**

Children’s Special Health Services (CSHS) funds diabetes clinics in Devils Lake, Fargo, Hettinger and Minot. Diabetes clinics supported by CSHS provide multidisciplinary team evaluations where families have an opportunity to see many different providers in one place at one time. Reports generated from the clinic visit include recommendations to help direct care for the coming year. All children who might benefit are eligible to attend with no direct cost to the family. For more information, review the following link: www.ndhealth.gov/cshs/docs/clinic-schedule.pdf.

Clinics make a positive difference in children’s overall care. Families report that clinics provide:
- Information, education and reassurance.
- Diagnostic evaluation and treatment.
- Coordinated/comprehensive care.
- Follow-up and monitoring.
- Access to specialty medical care.

**ND Diabetes Youth Outreach Program**

The ND Diabetes Youth Outreach Program provides ongoing education and clinical services for children and youth with Type 1 or Type 2 diabetes in Devils Lake, Hettinger and Minot. Diabetes education workshops also are provided for families and community health-care providers to enhance diabetes management. 701.255.1993

**Pediatric Diabetes Outpatient Service**

Pediatric diabetes outpatient services are offered monthly at the Sanford Health Coordinated Treatment Center in Fargo and quarterly at Mid Dakota Clinic in Kirkwood Mall Bismarck. This program uses a comprehensive, coordinated care approach for diabetes management and provides clinical evaluations by several specialists and diabetes education at each appointment.

- **Hettinger**:  
  - West River Health Services 701.567.6203
- **Jamestown**:  
  - Essentia Health 701.253.5300  
  - Sanford Health 701.253.4000
- **Minot**:  
  - Trinity Health 701.857.5268
- **Wahpeton**:  
  - Essentia Health 701.642.2000  
  - Sanford Health 701.642.7000

**Insulin Pumps**

When working closely with a diabetes care team, insulin pumps can help keep blood glucose levels within target ranges. To learn more about insulin pumps, go to:  
ND Diabetes Prevention and Control Program (NDDPCP) Some activities the program includes are:

- **Public awareness on preventing diabetes and complications**: NDDPCP collaborates with state partners to develop and deliver educational campaigns on diabetes. Media programs are scheduled for November during National Diabetes Month, in March to emphasize Diabetes Alert Day and to coincide with other national diabetes care initiatives. The program also maintains the DDC/NDDPCP website to include relevant information about diabetes.

- **Professional education programs**: Professional education programs for health-care providers are conducted through state conferences, conventions and satellite distance learning seminars.

- **Reimbursement Advocacy**: The NDDPCP participates in efforts to increase reimbursement coverage for diabetes education, medical nutrition therapy, drugs, supplies and other preventive care services.

- **Population served**: The NDDPCP targets all populations, but places special emphasis on efforts serving high-risk minority, elderly and disadvantaged people.

- **Data collection, analysis and distribution**: The North Dakota Diabetes Prevention & Control Program utilizes surveillance systems to track diabetes health behaviors, care practices and health outcomes. Surveillance resources include behavioral surveys, hospitalization information and vital records data. The DPCP collects and analyzes data to measure diabetes incidence, prevalence and impact, and evaluate program effectiveness.

- **Diabetes care provider report**: In partnership with Blue Cross Blue Shield of North Dakota (BCBSND), diabetes care is tracked through patient insurance claims. The DPCP funds a disease management coordinator at Blue Cross Blue Shield to manage the project and share information with care providers.

- **Quality improvement guidelines**: The NDDPCP collaborates with health-care providers to develop and implement diabetes care quality improvements. The NDDPCP assists clinics in establishing care tracking systems to monitor health practices and outcomes.

- **Community-based interventions**: NDDPCP participates in educational campaigns developed to empower people with diabetes to see self-care education and treatment. Efforts are made to identify barriers to care and establish culturally-accepted education and support systems. Collaboration opportunities with regional community coalitions, diabetes care centers and support systems involved in improving diabetes care are sought.

- **Improved access to care and education**: NDDPCP promotes educational programs on diabetes and are standards, nutrition and physical activity, obesity and other topics pertinent to diabetes prevention and care.

Division of Nutrition and Physical Activity North Dakota Department of Health 600 East Boulevard Avenue, Dept. 301 Bismarck, N.D. 58505-0200 701.328.2496 Toll-Free 800.280.5512 www.diabetesnd.org/

Dental Coverage

**Safety Net Dental Clinics** are programs that usually see patients who do not have other access to dental care. The patients typically are covered by Medicaid or the clinic offers sliding fee schedules or reduced fees.

- **Bridging the Dental Gap** is a nonprofit community dental clinic serving low-income and uninsured individuals in the Bismarck-Mandan area. 701.221.0158

- **Family Healthcare Center Dental Clinic** is a federally qualified community health center serving low-income and uninsured individuals within the Fargo Red River Valley Region. 701.271.3332

- **Red River Valley Dental Access Project** serves low-income, uninsured and Medicaid-eligible individuals who have urgent dental pain and do not have access to a dentist in Fargo-Moorhead. 701.364.5364

- **Valley Community Health Center Dental Clinic** is a federally qualified health center serving low-income, uninsured and insured individuals of all ages in the Northern Red River Valley. 701.757.2100

**North Dakota Donated Dental Services** is a network of volunteer dentists who provide dental care to the state’s most vulnerable people: disabled, elderly or medically compromised individuals who cannot afford necessary treatment nor get public aid. 866.572.9390 www.ndhealth.gov/oralhealth/Publications/Fact_Sheet_Dental%20Access.pdf

**Jerene’s Wish** is a program that provides orthodontic treatment at a minimal cost to eligible children. For more information contact, Warford Orthodontics. 701.255.1311 info@warfordorthodontics.com

**Medicaid** pays for health services for qualifying families with children and people who are pregnant, elderly or disabled. Screening, diagnosis and treatment for children younger than 21 is provided through the Health Tracks Program. For more information or to apply, contact your county social service office. www.nd.gov/dhs/services/medicalserv/medicaid

**ND Healthy Steps** is for children age 18 or younger who do not have health insurance, do not qualify for North Dakota Medicaid and live in families with qualifying income. Call 877.543.7669 for an application. www.nd.gov/dhs/services/medicalserv/chip
Vision Coverage
Vision USA provides basic eye health and vision care services free of charge to uninsured, low-income people and their families.
701.258.6766
www.aoa.org/visionusa.xml

VSP Sight for Students is a charity that provides free vision exams and glasses to low-income, uninsured children.
888.290.4964
www.sightforstudents.org

Prescription Coverage
ND Prescription Drug Repository Program collects and distributes donated medications from hospitals, hospices and other facilities so that pharmacies and physicians can dispense them to those who struggle paying for prescriptions regardless of insurance coverage. The medications and supplies are unopened and secure but cannot be resold to patients.
www.nodakpharmacy.com

Prescription Connection for North Dakota is a program of the North Dakota Insurance Department that connects kids and families with free and discounted prescription drugs direct from the pharmaceutical manufacturer.
888.575.6611
www.rxconnectnd.org

Health-Care Program
United Health Care Children’s Foundation embraces and supports the concept of facilitating access to health-related services that have the potential to significantly enhance either the clinical condition or the quality of life of the child and that are not fully covered by the available commercial health benefit plan. The Foundation provides financial assistance toward the family’s share of the cost of medical services.

Family Support Services

Anne Carlsen Center (ACC) offers a rich tradition of empowering individuals with disabilities and their families. Their experienced staff provides compassion, training, services and supports in homes and communities across North Dakota. On the Jamestown campus, they meet the educational, residential and therapeutic needs of children and young adults with autism, behavior disorders, medical fragility and other developmental disabilities. They also provide services in the home through customized supports for individuals from birth to age 21.

Financial Help

Bridge to Benefits is a multi-state project sponsored by the Children’s Defense Fund – Midwest Region focused on improving the well-being of families and individuals by linking them to public work support programs and tax credits.
nd.bridgetobenefits.org

Caring for Children provides free health and dental coverage to children of low-income working parents. Children are eligible if they are North Dakota residents, birth through age 18, and are not covered by other health insurance or not eligible for Medicaid or Healthy Steps. Parents must meet income requirements. For more information or to apply, call 701.277.2227 or toll-free at 800.342.4718.
www.ndcaring.org

Children’s Special Health Services (CSHS)

Diagnostic Services – CSHS pays for health-care visits and tests needed to diagnose many chronic health conditions seen in children. To qualify, children must be suspected of having a CSHS-eligible condition. There is no financial eligibility requirement for diagnostic services; however, insurance or other sources of health-care coverage are used when available. Health-care visits must be made with a specialist who is approved to provide services through CSHS.

Treatment Services – In North Dakota, several programs are available that provide health care coverage for children. CSHS is a program specifically for children with special health-care needs. CSHS pays for specialty care that is needed to treat a CSHS-eligible condition. To qualify, families must meet income eligibility guidelines currently set at 185 percent of the federal poverty level. Families with incomes higher than 185 percent still may be eligible with a cost share. Insurance or other sources of health-care coverage are used when available. Health-care visits must be made with a specialist who is approved to provide services through CSHS.

Families apply for CSHS diagnostic and treatment services at their local county social service office. In order to ensure coverage, contact CSHS toll free at 800.755.2714, as provider restrictions and time limits may affect the eligibility start date.

Comprehensive Health Association of North Dakota (CHAND) provides comprehensive health insurance to residents of the state who are denied health insurance or are considered high risk. Individuals must be a resident of North Dakota continuously for at least six months and have written evidence from at least one insurance carrier that within the last six months they have been denied health-care coverage or offered coverage which substantially restricts benefits for specific conditions. For more information, call 800.737.0016.
Head Start
Head Start and Early Head Start are comprehensive child development programs. Regular Head Start programs are for children ages 3 and 4. Some communities offer a program specifically for families with children younger than 3 and pregnant women. A variety of services are provided through Head Start programs, including health, education, parent involvement, family literacy, social services and services for children with disabilities. Call the Head Start State Collaboration office at 800.245.3736 or your local Head Start program.
www.nd.gov/dhs/services/childfamily/headstart

School Nursing
The purpose of school nursing is to support the educational process by contributing positively and significantly to the health, health attitudes and health behaviors of today's children, and consequently, tomorrow's adults. Contact the Department of Health at 701.328.2493 or your local school nurse.
www.ndhealth.gov/school-nursing

Special Education
It is important to locate and identify children who are in need of special services as early as possible. Screening and assessment opportunities offered at school help identify possible areas of difficulty that could interfere with a child’s learning or academic performance. Some children with disabilities may require special education services to address their unique educational needs. Contact the Department of Public Instruction at 701.328.2260 or your local special education unit.
www.dpi.state.nd.us

Disability Services Division
provides services to North Dakota citizens of all ages with developmental disabilities. Call your regional Human Service Center or the Disability Services Division at 800.755.8529.
www.nd.gov/dhs/services/disabilities

- Family Care Option provides respite care to families through short-term foster home placement.
- Family Subsidy Program provides financial help needed by the family to care for the child at home.
- Infant Development Program provides intervention services in the home or other natural settings by trained professionals to promote optimum development of children from birth through age 2.
- Respite Care Program provides services of a specially trained caregiver to provide the family with occasional relief from the stress of providing care.
- Right Track provides child development consultations for children from birth to age 3. For more information, call 800.755.8529.
- Supportive Home Care assists with and teaches parents about the special care the child needs.
- Experienced Parent Program provides support services to parents with children enrolled in early intervention.

Family Voices of ND
is a health-care information and education center, which includes the Parent to Parent Project. A program that offers emotional support to families.

Pediatricians and Family Doctors
Lists of primary care doctors who practice in North Dakota are available upon request. All children benefit from a medical home. A medical home is not a building, but rather an approach to providing comprehensive medical care. In a medical home, a physician or other medical provider works in partnership with the family/patient to assure that the medical and non-medical needs of the child/youth are met. Through this partnership, the medical provider can help the family/patient access and coordinate specialty care, educational services, out-of-home care, family support, and other public and private community services that are important to the overall health of the child and family.

Public Health
Local public health units provide a variety of services such as immunizations, home visits, high-risk infant follow-up, general child health services, community wellness programs, and school health screenings.
