

ACTION PLAN

Title V / Maternal and Child Health (MCH)

North Dakota Maternal and Child Health Priority Area <i>(check only one box):</i>		
<input type="checkbox"/> Increase the rate of breastfeeding at 6 months <input type="checkbox"/> Reduce disparities in infant mortality specifically related to safe sleep <input type="checkbox"/> Reduce fatal motor vehicle crash deaths to adolescents <input type="checkbox"/> Reduce overweight and obesity in children		
<p>Objective An objective is a statement of intention with which actual achievements and results can be measured and compared.</p> <p>Objective(s) must be written “SMART” – specific, measurable, achievable, relevant and time-phased.</p> <p>Note: Your objective(s) may have different timeframes. If successfully selected as a Grantee, you will be funded for 5 years; hence, consider setting both short and long-term objectives.</p>	<p>Strategies and Activities Strategies and Activities <u>must</u> be linked to evidence-based, evidence-informed and/or promising practices.</p> <p><i>Strategies</i> are the general approaches taken to achieve the objectives. <i>Activities</i> are specific actions to implement the strategies.</p> <p>Note: Activities should occur between <u>April 1, 2016 – September 30, 2017</u>.</p>	<p>References used for evidence-based, evidence-informed and/or promising practices</p>
