Autism spectrum disorder (ASD) is a group of developmental disabilities that can cause significant social, communication, and behavioral challenges.

“Autism spectrum disorder (ASD) is a complex developmental disability; signs typically appear during early childhood and affect a person’s ability to communicate and interact with others. ASD is defined by a certain set of behaviors and is a “spectrum condition” that affects individuals differently and to varying degrees. There is no known single cause of autism, but increased awareness and early diagnosis/intervention and access to appropriate services/supports lead to significantly improved outcomes. Some of the behaviors associated with autism include delayed learning of language; difficulty making eye contact or holding a conversation; difficulty with executive functioning, which relates to reasoning and planning; narrow, intense interests; poor motor skills and sensory sensitivities. Again, a person on the spectrum might follow many of these behaviors or just a few, or many others besides. The diagnosis of autism spectrum disorder is applied based on analysis of all behaviors and their severity.”

-The National Autism Society (autism-society.org/what-is/)
Specialty Health Services

For nearly all children on the autism spectrum, evaluation by an experienced team of professionals is necessary for an accurate diagnosis and optimal treatment plan. Families are essential partners to the team, as they are the principle caregivers and center of strength and support for children.

Diagnostic Clinics

Altru’s Pediatric Developmental Clinic

This clinic serves children considered to be at risk for developmental issues. Located in Altru’s Main Clinic, the Pediatric Developmental Clinic integrates physical and occupational therapy screenings, as well as nutrition services with the child’s physician appointment. Together, the team determines if the child has a need for additional services.

Anne Carlsen Center

The Anne Carlsen Center provides a thorough evaluation for families seeking to determine if their child meets criteria for ASD. The diagnostic team includes a pediatrician, behavior support coordinator, occupational therapist, and speech language pathologist. The evaluation is conducted in a clinical setting utilizing formal and informal assessment tools. Clinics are held twice monthly in Jamestown at the Anne Carlsen Center; each child is typically seen over the course of half of a day. Family members are present during the evaluation to answer questions and offer insight. Families meet with the team that same day to discuss results. For more information, visit annecarlsen.org.

Special Health Services (SHS) supports autism clinics in Williston and Minot. The purpose of these clinics is to provide diagnostic services, including screening and follow-up services, to referred children following the best practice interdisciplinary model. Referrals most often are made by local providers, but can also be made by families. Children are screened at the clinic in an arena-style format. In this environment, the interdisciplinary team works in one room with the family present to perform screening and provide recommendations to the family. The sites for the ASD clinics are listed below:

**Great Plains Interdisciplinary Autism Diagnostic Clinic (GPIC)**

Special Health Services (SHS) supports autism clinics in Williston and Minot. The purpose of these clinics is to provide diagnostic services, including screening and follow-up services, to referred children following the best practice interdisciplinary model. Referrals most often are made by local providers, but can also be made by families. Children are screened at the clinic in an arena-style format. In this environment, the interdisciplinary team works in one room with the family present to perform screening and provide recommendations to the family. **Sanford Health’s Pediatric Developmental Evaluation Clinic**

This clinic is for any child (age 6 months and older) warranting a full developmental assessment. Each child is evaluated by a speech therapist, occupational therapist, pediatrician, psychologist, and dietician. Families are also seen by a medical social worker and a registered nurse. Diagnosis of an ASD facilitates at least one follow-up visit with the child and family. These visits are intended to monitor the child’s progress and ensure that appropriate services are in place for the child and family.

Genetic Services

Genetic testing is used to identify DNA changes associated with specific medical conditions. Genetic testing can help determine whether a person has a genetic disease, whether it has been inherited, and the chance for future children or other family members to have the same condition.

Genetic/Birth Defect Clinics are held periodically throughout the state. For clinic schedule information, contact Special Health Services toll-free at 800.755.2714.

MSSNG

MSSNG aims to sequence the complete genomes of 10,000 individuals affected by autism and their families. Autism Speaks is collaborating with Google to store sequenced data from MSSNG on the Google Cloud Platform, providing an open resource for scientists worldwide to access and share ASD research. MSSNG is a significant milestone in advancing genomic research of ASD and could lead to breakthroughs in causes, subtypes, and better diagnosis and treatment for the disorder. For more information, visit mss.ng.
Interventions for Autism Spectrum Disorders

There are a number of behavioral and educational interventions currently available for individuals with ASD. Not every treatment may be appropriate for every child.

One way to determine if a particular treatment may be effective is to evaluate the research. The Evidence-Based Practices (EBP) Report from The National Professional Development Center utilizes a Strength of Evidence classification system to demonstrate the EBP’s confidence about the efficacy of a specific intervention. Ratings reflect the quality, quantity, and consistency of research findings. The EBP can be found online at autismpdc.fpg.unc.edu/node/21.

It is also important that you speak with your child’s physician to discuss the different therapy options.

Ohio Center for Autism and Low Incidence (OCALI)

OCALI serves families, educators, and professionals working with students with autism and low-incidence disabilities, including autism spectrum disorders, multiple disabilities, orthopedic impairments, other health impairments, and traumatic brain injuries. OCALI’s mission is to build state and system-wide capacity to improve outcomes through leadership, training and professional development, technical assistance, collaboration, and technology. Visit ocali.org for more information.

Free training modules on various interventions are located at autisminternetmodules.org/user_mod.php.
The University of North Carolina TEACCH Autism Program

This university-based system of community regional centers offers a set of core services along with unique demonstration programs meeting the clinical, training, and research needs of individuals with ASD, their families, and professionals. The TEACCH Autism Program provides clinical services such as diagnostic evaluations, parent training and parent support groups, social play and recreation groups, individual counseling for higher-functioning clients, and supported employment.

In addition, TEACCH Autism Program conducts training nationally and internationally and provides consultation for teachers, residential care providers, and other professionals from a variety of disciplines. Learn more at teacch.com.

Many interventions exist for ASD; yet, scientific research has found only some of these interventions to be effective. The interventions that researchers have shown to be effective are called evidence-based practices (EBPs). One reason for using EBPs is because, by law, teaching practices must be based on evidence of effectiveness. Learn more at autismpdc.fpg.unc.edu/node/19.

**Autism Waiver**

This waiver provides services for young children who have a diagnosis of ASD. The waiver gives families access to an evaluation team that can validate their child’s diagnosis and serve as a resource for the family’s local service providers.

- Service Management
- Skills Training
- Program Design & Monitoring
- Respite Care
- Assistive Technology

ASD Services
Phone: 701.328.8912
nd.gov/dhs/autism/

**Autism Voucher**

The voucher program helps pay for assistive technology, training, and other approved support services that help meet the unique needs of children with ASD.

Vouchers are provided totaling up to $12,500 per year, per qualifying child, to help eligible families with the cost of supporting a child with ASD.

**Autism Spectrum Disorder Database**

The Division of Special Health Services (SHS) within the ND Department of Health administers an Autism Spectrum Disorder Database that includes records of all reported cases of ASD in North Dakota.

Special Health Services
Phone: 701.328.2436

**Intellectual Disabilities/Developmental Disabilities Waiver**

This waiver assists eligible individuals with intellectual disabilities and developmental disabilities to remain living at home and in the community. It serves individuals through the lifespan (both children and adults). Services offered under the waiver include Developmental Disabilities Program Management; Infant Development (for children from birth to age 3); In-Home Supports; Assistance with transportation costs, equipment, supplies, and environmental modifications; and Adult services such as day services, job coaching, and residential services. Apply by contacting the Developmental Disabilities Unit at one of the regional human service centers. Visit [www.nd.gov/dhs/locations/regionalhsc/](http://www.nd.gov/dhs/locations/regionalhsc/) for more information.

**Health Tracks/EPSDT**

Federal law requires state Medicaid programs to offer Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) to all Medicaid-eligible children under age 21. EPSDT is designed to ensure that children in low income families receive the health check-ups and treatments they need. The EPSDT benefit entitles eligible children and adolescents to all necessary screening, diagnostic, and treatment services.

Free preventive health-screening services are offered to children enrolled in Medicaid from birth to age 21.

**Children may receive:**

- Childhood immunizations
- Dental screening
- Developmental screening
- Hearing screening
- Lab tests
- Lead screening
- Mental health screening
- Other specialty care if needed
- Orthodontic treatment (braces for teeth)
- Physical examination including a health history
- Prescription drugs
- Vision care
- Vision screening

Simply contact your local county social service office or local public health unit. They will help schedule a Health Tracks appointment. For more information, call 1.800.755.2604.
Family Support Services

Anne Carlsen Center

The Anne Carlsen Center offers a rich tradition of empowering individuals with disabilities and their families. Their experienced staff provides compassion, training, services and support in homes and communities across North Dakota. On the Jamestown campus, they meet the educational, residential and therapeutic needs of children and young adults with autism, behavior disorders, medical fragility and other developmental disabilities. They also provide services in the home through customized support for individuals from birth to age 21. In addition, through their community-based services (i.e., in-home supports and community day support), Anne Carlsen accommodates individuals of all ages, including adults. For more information about services in the Dickinson location, call 701.934.1144 or visit: annecarlsen.org.

**Center for Parent Information and Resources (CPIR)**

CPIR serves as a central resource of information and products to the community of Parent Training Information (PTI) Centers and the Community Parent Resource Centers (CPRC’s), so that they can focus their efforts on serving families of children with disabilities. Visit [parentcenterhub.org](parentcenterhub.org) for more information.

**Early Intervention (Infant Development)**

This is a service designed to help families with children from birth to age three with disabilities and/or developmental delays. The goal of this program is to support the child and their family in gaining skills and fully participating in their natural environment. By partnering with families, ND Early Intervention provides them with the tools and support they need to help their child be successful. Qualifying families have access to a wide array of therapeutic professionals, as well as a Service Coordinator (DD Program Manager) and an experienced parent. Anyone, including family members, can refer a child for a free developmental evaluation, with eligibility based on the following criteria:

- Displays a 50 percent delay in any area of development (cognition, communication, motor, self-help or social emotional skills).
- Displays a 25 percent delay or more in any two areas of development.
- Has a diagnosis or disability that impairs typical development.
- Has a significant health condition that puts them at high risk for developmental delays.
Another component to ND Early Intervention is Right Track. Right Track provides a variety of services to families, which include developmental screenings, referrals to community resources, serving as a resource to parents, etc. To make a referral, or to learn more, call the Developmental Disabilities Services Division at 800.755.8529 or visit nd.gov/dhs/services/disabilities.

For other developmental disabilities, contact the Human Service Centers of North Dakota at one of these regional offices:

nd.gov/dhs/services/mentalhealth
Special Health Services (SHS)

The mission of the Division of Special Health Services is to promote a system of care and services that improves the health and well-being of individuals with special health care needs and their families. Cross-cutting implementation strategies at the heart of all SHS programs include:

- Care Coordination
- Collaboration
- Data-informed Decisions
- Information and Education

Programs and Services

Coordinated Services Program: Provides services and resources that support coordinated management of specific chronic health conditions.

Financial Coverage Program: Helps families pay for medical services for eligible children, youth, and young adults who require specialty care to diagnose and treat their chronic health conditions.

Newborn Screening and Follow-up Program: The goal of this program is to identify conditions at an early age when treatment and intervention can prevent health problems, support early development, and save lives.

Children with Special Health Care Needs System Enhancement Program: Improves health outcomes of Children with Special Health Care Needs (CSHCN) by advancing a quality, comprehensive system of care that promotes the healthy development and well-being of children and their families.

County Social Services

County Social Services administer economic assistance and social service programs. To inquire about assistance, please check your local phone book under county government or visit nd.gov/dhs/locations/county socialserv.

North Dakota Department of Public Instruction (DPI)

Some children with disabilities may require special education services to address their unique educational needs. Contact the Department of Public Instruction at 701.328.2277 or locate your local special education unit at dpi.state.nd.us.

Pediatricians and Family Doctors

All children benefit from a medical home. A medical home is not a building, but rather an approach to providing comprehensive medical care. In a medical home, a physician or other medical provider works in partnership with the family/patient to assure that the medical and non-medical needs of the child/youth are met. Through this partnership, medical providers can help families access and coordinate specialty care, educational services, out-of-home care, family support, and other public and private community services that are important to the overall health of the child and family. Contact SHS at 701.328.2436 for a list of primary doctors who practice in ND.

Public Health

Local public health units provide a variety of services such as immunizations, tobacco use prevention, high blood pressure screening, injury prevention screening, blood lead screening, Early and Periodic Screening Diagnosis & Treatment, home visits, high-risk infant follow-up, general child health services, community wellness programs, and school health screenings. Visit ndhealth.gov/localhd for details.

Transition to Independence Program

This program provides wraparound case management for transition aged youth/young adults at risk as they transition to adult services.

North Dakota Department of Human Services

**School Nursing**

The purpose of school nursing is to support the educational process by contributing positively and significantly to the health, health attitudes and health behaviors of today’s children, and consequently, tomorrow’s adults. Contact the Department of Health at 701.328.2436 for more details.

**Special Education**

It is important to locate and identify children who are in need of special services as early as possible. Screening and assessment opportunities offered at school help identify possible areas of difficulty that could interfere with a child’s learning or academic performance. Some children with disabilities may require special education services to address their unique educational needs. Contact the Department of Public Instruction at 701.328.2260 or your local special education unit. Visit [nd.gov/dpi](http://nd.gov/dpi) for more information.

**Pathfinder Services of ND**

Pathfinder Services of ND provides statewide parent training and information to help families of children and youth with learning difficulties.

nd.gov/dhs/services/medicalserv/medicaid

*Families seeking behavioral intervention services under the Medicaid State Plan will need to complete this checklist prior to evaluation and diagnosis. Visit m-chat.org/mchat.php to access the checklist.

Children with Disabilities Medicaid Coverage

This program allows qualifying children with disabilities to buy into Medicaid. The program provides comprehensive coverage through Medicaid, including dental and mental health coverage, in return for a premium. Apply at your local county social service office.

Children and Family Coverage

Coverage is available to children younger than 21, pregnant women, and adult caretakers of deprived children. Most receive full coverage; however, some with higher income may be required to pay for a portion of their care. Apply at your local county social service office.

Children’s Hospice Services Waiver

The Children’s Hospice Waiver provides support to families so they can care for their children (from birth through age 21) in their homes as long as possible, avoiding lengthy stays and delaying or avoiding institutional care. The child must have a diagnosis and not be expected to live longer than one year. The program also allows families to access treatments that focus on curative and comfort care for their children.

Phone: 701.328.4630

Children with Medically Fragile Needs Medicaid Waiver

This Medicaid Waiver is designed to assist qualifying medically fragile children between ages three and 18 years. The child must be living at home, be Medicaid eligible, be able to meet Level of Care criteria for a nursing home, and meet criteria based on the Level of Need.

Phone: 701.328.4630
Home and Community-Based Services Waiver

Alternative services are provided for individuals with disabilities who are at least 18 years of age and individuals older than 65 who are eligible for the Medicaid Program and have medical needs that would qualify them to enter a nursing facility. The waiver allows North Dakota to pay for services needed for these individuals to remain in their own homes or community settings. Recipients may be required to pay for a portion of their care based on income. Apply at your local county social service office.

Medicaid Expansion Provides Coverage

Coverage is available to individuals under age 65 with household income up to 138 percent of the Federal Poverty Level (FPL). Individuals eligible for Medicare or Supplemental Security Income (SSI) are not eligible for coverage under Medicaid Expansion. Visit nd.gov/dhs/eligibility for more information.

Intellectual Disabilities/Developmental Disabilities Waiver

This waiver assists eligible individuals with intellectual disabilities and developmental disabilities to remain living at home and in the community. This serves individuals through their lifespan (both children and adults). Services offered under the waiver include Developmental Disabilities Program Management; Infant Development (for children from birth to age 3); In-Home Supports; Assistance with cost of equipment, supplies, and environmental modifications; and Adult Services such as day services, job coaching, and residential services. Apply by contacting the Developmental Disabilities Unit at one of the regional human service centers found online at nd.gov/dhs/locations/regionalhsc.

Workers with Disabilities Medicaid Coverage

This coverage allows some individuals with disabilities who want to work, or who are already working and want to increase their earnings, to do so without fear of losing their Medicaid coverage. It allows qualifying individuals to buy into Medicaid. The program provides comprehensive coverage through Medicaid, including dental and mental health coverage, in return for a premium. Apply at your local county social service office.

Healthy Steps

This is a benefit program for eligible North Dakota children up to age 19 who do not have a source of health care coverage. The program offers comprehensive medical, dental and vision coverage.

Phone: 877.KIDS.NOW or 877.543.7669

Special Health Services Financial Coverage Program

Helps families pay for medical services for eligible children, youth, and young adults who require specialty care to diagnose and treat their chronic health conditions.

Phone: 800.755.2714 or 701.328.2436  ndhealth.gov/cshs/program.htm
Get Covered North Dakota

This program links North Dakota residents with enrollment specialists in their local communities. Free impartial assistance is available to help consumers understand and find affordable health-care coverage. For more information, visit getcoverednorthdakota.org.

Health Insurance Marketplace (HIM)

The HIM enables individuals to find quality health coverage. It can help if you or your child(ren) don’t have coverage now, or if you have it but want to look at other options. It is designed to provide coverage that meets your needs, fits your budget, as well as options for qualifying for free or low-cost coverage through Medicaid or Healthy Steps/Children’s Health Insurance Program (CHIP).

Phone: 800.318.2596
healthcare.gov
ndcpd.org

Comprehensive Health Association of North Dakota (CHAND)

CHAND provides comprehensive health insurance to residents of North Dakota who have been denied health insurance or are considered high risk.

Phone: 844.363.8457
chand.org

Student Health Plans

These plans are available for purchase by students who don’t have health insurance through a parent’s health insurance policy or who have limited coverage due to network service areas. Student plans are sold by an insurer that has contracted with a college to offer coverage to its students. In general, these plans have more limited benefits and more exclusions than traditional health insurance plans. Contact an insurance agent to inquire about student health plans.

healthcare.gov/young-adults/college-students/
Vision Coverage

InfantSEE®
This is a public health program designed to ensure early detection of eye conditions in babies. Member optometrists provide a comprehensive eye and vision assessment for infants within the first year of life regardless of a family’s income or access to insurance coverage.

Phone: 888.396.3937
infantsee.org

New Eyes for the Needy
New prescription eyeglasses are available through a voucher program for children and adults in the U.S. who cannot afford glasses on their own. Visit new-eyes.org or call 973.376.4903 for more information.

Vision USA
Vision USA provides basic eye health and vision care services free of charge to uninsured, low-income people and their families.

Phone: 701.258.6766
ndeyecare.com

VSP Sight for Students
VSP is a charity that provides free vision exams and glasses to low-income, uninsured children.

Phone: 888.290.4964
sightforstudents.org
Prescription Coverage

**Prescription Connection**
This is a program of the North Dakota Insurance Department that connects kids and families with free and discounted prescription drugs direct from the pharmaceutical manufacturer.

Phone: 888.575.6611 or 701.328.2440
[rxconnectnd.org](http://rxconnectnd.org)

**ND Prescription Drug Repository Program**
The repository collects and distributes donated medications from hospitals, hospices and other facilities so that pharmacies and physicians can dispense them to those who struggle paying for prescriptions regardless of insurance coverage. The medications and supplies are unopened and secure but cannot be resold to patients. Visit [nodakpharmacy.com](http://nodakpharmacy.com) for more information.

**NeedyMeds**
NeedyMeds offers a database of medications that can be obtained free or at low cost by uninsured, low-income patients, usually through manufacturer programs.

Phone: 800.503.6897
[needymeds.org](http://needymeds.org)

**Partnership for Prescription Assistance**
A single point of access is available to more than 475 public and private patient assistance programs. It is funded by pharmaceutical companies.

Phone: 888.477.2669
[pparx.org](http://pparx.org)

**RX Assist**
RX Assist provides consumer information, resources, news and a directory of patient assistance programs that offer affordable or free medications.

Email: info@rxassist.org
[rxassist.org](http://rxassist.org)
Dental Coverage

Safety Net Dental Clinics are programs that usually see patients who do not have other access to dental care. The patients typically are covered by Medicaid or the clinic offers sliding fee schedules or reduced fees.

Bridging the Dental Gap

This is a nonprofit community dental clinic serving low-income and uninsured individuals in the Bismarck-Mandan area.

Phone: 701.221.0518
dentalgap.org

Family Healthcare Center Dental Clinic

This is a federally qualified community health center serving low-income and uninsured individuals within the Fargo/Red River Valley Region.

Phone: 701.271.3344
famhealthcare.org

Northland Community Health Center Dental Clinic

This clinic is part of a federally qualified community health center serving low-income, uninsured, and insured individuals of all ages in central North Dakota.

Phone: 701.448.9111
northlandchc.org

Red River Valley Dental Access Project

This project serves low-income, uninsured, and Medicaid-eligible individuals who have urgent dental pain and do not have access to a dentist in Fargo-Moorhead.

Phone: 218.790.7790
rrdentalaccess.com

Valley Community Health Center Dental Clinic

This is a federally qualified health center that serves low-income, uninsured, and insured individuals of all ages in the Northern Red River Valley.

Phone: 701.757.2100
valleychc.org

North Dakota Donated Dental Services

This is a network of volunteer dentists who provide dental care to the state’s most vulnerable people: disabled, elderly, or medically compromised individuals who cannot afford necessary treatment nor get public aid.

Phone: 866.201.5906
dentallifeline.org/north-dakota
**Jerene’s Wish**

Jerene’s Wish is a program that provides orthodontic treatment at minimal costs to eligible children. For more information, contact Warford Orthodontics.

Phone: 701.255.1311  
E-mail: info@warfordorthodontics.com  
jereneswish.com

**Smiles Change Lives**

This program promotes and provides access to essential orthodontic treatment for children from low-income families.

Phone: 888.900.3554  
smileschangelives.org

**The Ronald McDonald Care Mobile**

This is a mobile dental clinic on wheels that delivers urgently needed dental care to underserved children from birth through age 21 in their own neighborhoods in the western half of North Dakota. The Ronald McDonald Care Mobile treats children who do not have a regular dentist and who have not seen a dentist within the past two years.

Phone: 701.258.8551  
rmhcbsimarck.org/caremobile
Health Care Programs

Shriners Hospitals for Children

Shriners Hospitals for Children provides care for children (age 17 and younger) with orthopedic problems and burns. Evaluation clinics are offered throughout North Dakota.

Phone: 800.237.5055
shrinershospitalsforchildren.org

Community Health Centers (CHC)

CHC’s serve all patients regardless of their ability to pay for services. CHC’s are located in Beulah, Bismarck, Bowbells, Center, Fargo, Grafton, Grand Forks, Hazen, Killdeer, Larimore, McClusky, Minot, Northwood, Rolette, Rolla, Turtle Lake, and West Fargo.

Phone: 701.221.9824

North Dakota Association for the Disabled (NDAD)

NDAD may provide help with fundraising or some financial assistance for individuals with disabilities.

Phone: 800.532.6323
ndad.org

United Health Care Children’s Foundation

This foundation supports the concept of facilitating access to health-related services that have the potential to significantly enhance either the clinical condition or the quality of life of the child and that are not fully covered by an available commercial health benefit plan. The Foundation provides financial assistance toward the family’s share of the cost of medical services.

Phone: 855.698.4223
uhccf.org

Indian Health Service (IHS)

IHS provides health services to American Indians and Alaskan Natives who belong to federally recognized tribes. The IHS administers health services through IHS facilities, through tribally-operated facilities and by contracting for health services.

ihs.gov

Service Organizations such as the Elks, Kiwanis, Sertoma, Lions and Quota may offer assistance with medical-related expenses. Check the local phone book for contact numbers.

This is not an all-inclusive list of health care coverage options.
