Programs for Children with Cardiac Conditions

CARDIAC CARE FOR CHILDREN

Provides examinations by participating pediatric cardiologists and routine tests for children with cardiac conditions in Bismarck, Fargo, Grand Forks and Minot. The program ensures comprehensive and coordinated care through appointment reminders, linkage and referral to other services and programs, and through care coordination as needed. Health care and financial information is available to families and professionals upon request.

Any child, birth to twenty-one years of age, who lives in North Dakota, may participate in this program. Third party payers such as private insurance and Medicaid are billed when available.

The Cardiac Care for Children program covers examinations by participating pediatric cardiologists and routine tests to support the cardiac assessments, such as:

- Chest X-Rays
- Electrocardiograms
- Echocardiograms
- Select Laboratory Tests

If more extensive diagnostic services or treatment are needed, a separate application for one of the following programs is recommended.

DIAGNOSTIC SERVICES

Pays for more extensive cardiac tests in addition to the above services. An application through county social services is necessary. No financial eligibility is required. Third party payers such as private insurance and Medicaid are billed when available. Covered tests may include:

- Diagnostic Heart Catheterization
- Ambulatory Electrocardiogram Monitoring (Holter Monitor)
- Stress Test

TREATMENT SERVICES
