Introduction

ASPEN Web: electronic Plan of Correction (ePOC) runs in a web browser (Internet Explorer 8 or 9) over the Centers for Medicare and Medicaid Services (CMS) intranet. ePOC provides a means for users to electronically manage provider Plans of Correction.

About this Procedures Guide

The ASPEN Web: ePOC Procedures Guide gives users the information needed to manage POCs for surveys electronically via ePOC:

- Review posted statement of deficiencies
- Review posted survey related letters
- Submit and e-sign POC to state agency/regional office

Note: This guide is meant for users who have basic Windows operations knowledge and have participated in ePOC training.

This guide consists of this introduction and the following chapters:

- ASPEN Web: ePOC Procedures
  Provides task-based procedures using the ePOC process for supported provider types. If you need more information, links to additional material are included.

- ASPEN Web: ePOC Screens
  Contains pictures and brief descriptions of ePOC-related screens and windows in the browser application.

- ASPEN Web: ePOC Fields and Buttons
  Presents descriptions of the fields and buttons in the ePOC-related screens and windows in the browser application.

- Supporting Materials
  Contains supplemental information and reference items.

While it is designed to be used easily online, you can print this document if you prefer.
Viewing this Document Online

You must have Adobe Reader installed to view this document online. You can download the latest version from http://www.adobe.com/products/acrobat/readstep2.html

On any page, you can click the Increase (+) or Decrease (-) button in the toolbar to adjust the page magnification to your comfort level. Use the bookmarks in the left pane of Adobe Reader to locate and go (click the bookmark) to relevant information in this procedures guide.

![Bookmarks](image)

*Figure 1: Bookmarks*

You can also click the Contents bookmark and then click links in the table of contents to go to relevant topics.

**Tip:** For best viewing quality in Adobe Reader, go to Edit | Preferences | Page Display (path may vary somewhat depending on version). Select the applicable Smooth Text option.

If you need more information, links to relevant additional material in this document are included. Click a link to directly access the related information.

In the Procedures chapter, there are three types of links (cross-references) to additional material. They are grouped at the end of a procedure or descriptive section.

**More ...**
- Procedure: "Compose a Plan of Correction" on page 17
- Screen: Survey List on page 33
- "Core ePOC Process" on page 12

- Click the first link to go the indicated procedure.
- Click the second link to go to a graphic and description of the indicated screen or section of screen.
- Click the third link to go to descriptive information about the indicated topic.
In the Screens chapter, there is another type of link (cross-reference) to additional material:

Fields: Survey List on page 45

- Click the link to go the field descriptions for the indicated screen.

There may also be cross-references in the Fields and Supporting Materials chapters.

**Viewing a Printed Copy of this Document**

If you print this procedures guide, use the Table of Contents to locate the information you need. Links (cross-references) to additional material in this document include page numbers; simply go to the indicated page.

**Conventions**

This guide uses the following conventions:

- **Bold** In procedures: names of screens, screen sections, windows you open; and buttons, menu options, keys you press.
- **web** Generic reference to the World Wide Web.
- **More ...** Introduces a list of “see also” cross-references.
- **Note:** Notes give you important information that may affect how you use a function.
- **TIP:** Tips give you useful hints, suggestions, or alternative approaches.
- **WARNING!** Warnings tell you actions to avoid that may cause harm, or precautions you should take to avoid causing harm.
Accessibility Features

This ASPEN Web: ePOC Procedures Guide and ePOC user interface include a number of 508-compliant accessibility features, which are detailed below.

In this Guide

- Alternative text (alt text) is defined for all graphics, which screen readers can read.
- All graphics have captions.
- Information is not conveyed by means of color alone.
- Reading order is optimized, so content is read correctly by screen readers.
- Tables are generally not used for formatting, so text is accessible to screen readers.

In ASPEN Web: ePOC

- All fields are included in the tabbing sequence.
- Keyboard shortcuts exist for application options, making ePOC keyboard-accessible.
- All error messages are accessible to screen readers.
- Although your browser's back arrow functionality is available from within ePOC, to ensure refreshed, current information displays, use the ePOC application's Back button.

More ...

"ASPEN Web: ePOC Keyboard Shortcuts" on page 67
ASPEN Web: ePOC Procedures

The ASPEN Web: ePOC (electronic Plan of Correction) application offers providers a convenient centralized workplace for completing all steps in POC processing including:

- Reviewing Statements of Deficiencies (SODs)
- Creating POCs
- Submitting POCs

The ePOC process is the same for all surveys with one or more deficiencies whether certification, investigation, Health, Life Safety Code, Federal Monitoring Survey, or revisit. POCs are not permitted for Past Non-Compliance (PNC) and A-level Scope/Severity tags or for deficiency-free surveys; however, acknowledgement of the SOD is required in all cases.

The ePOC life cycle begins with the State Agency (SA) or Regional Office (RO) creating a survey and adding their findings. The SA/RO then posts the survey on the ASPEN Web: ePOC website. At this point, an email notification is generated to all ePOC-enrolled users at the facility. After receiving the email notification, facility users review the SOD and submit POCs for the deficiencies.

On the ePOC website, the ePOC-enrolled users at the facility can:

- Review all cited deficiencies displayed on the website
- Review letters added to the survey by the SA/RO
- Attach documents to support their POCs

To enhance communication and monitor timeliness, providers receive timely automated email notification throughout the ePOC process.

After the POCs for all deficiencies cited on the survey are approved, you can print the CMS-2567 form(s) for posting on the premises.

Note: ASPEN Web: ePOC supports MS Internet Explorer versions 8.0 and 9.0 only.
Core ePOC Process

When the SA/RO posts a survey to ASPEN Web: ePOC, all ePOC-enrolled users at the facility receive the Survey Posted email with information identifying the survey. The facility users then perform the basic ePOC process outlined below. The procedures that follow provide detailed instructions for completing the relevant steps.

1. Log into QIES ASPEN Web: ePOC application.
2. Select pertinent facility, if applicable, i.e., you are enrolled for multiple ePOC-activated facilities.
3. Select pertinent survey record based on exit date and unique Event ID.
5. For each tag, enter POC text and completion date.
6. Submit POC to SA/RO, one tag at a time or as a group.
7. You receive POC Submission email when POC is successfully submitted.
8. If SA/RO approves a tag’s POC, you receive Approved email.
9. If SA/RO rejects a tag’s POC, you receive a Rejected email listing the reasons for rejection and explanations (if entered). You may then revise and re-submit the tag’s POC.
10. Upon SA/RO approval of all tags on the survey, you receive Final Approval email.
11. Print the CMS-2567/"A" Form.

Accessing ASPEN Web: ePOC

In order to use the ASPEN Web: ePOC application, a facility must meet the following criteria:

- Must be a federally certified NH provider
- Must be Open
- Has a CMS Certification Number (CCN) assigned
- Has active QIES and CMSNet accounts
- Has completed ePOC registration
- Has been activated by SA for ePOC participation

To use the ASPEN Web: ePOC application, providers must first enroll. Currently, only Nursing Homes are eligible to use ePOC. New users will register for QIES and ePOC access. Existing users only need to enroll for ePOC access.

To open ASPEN Web: ePOC, you must log in through CMSNet to the QIES Systems for Providers welcome page.
To open ASPEN Web: ePOC:

1. Log into CMSNet.
2. Select the web bookmark, CMS QIES Systems for Providers to launch the welcome page.
3. Select the ASPEN Access (ePOC) link from the bottom of the page.
4. Select the ASPEN Web link from the upper left corner of the ASPEN Access page.
5. Enter your ePOC login ID and password.

**Note:** If the ePOC session is about to expire, the system issues a warning with the option to continue without interruption. If you do not respond to the message, the session expires and the you will have to log in again.

More ...

### ASPEN Web: ePOC Basics

#### View the Facility List

After you successfully log in, the ePOC application determines if you are associated with multiple facilities, i.e., enrolled for multiple ePOC-activated facilities. If so, the Facility List is displayed when you first open the ePOC application. It lists up to 25 facilities for which you are enrolled. If you are associated with more than 25 facilities, you can scroll to the bottom of the page and use page navigation keys to access the additional facilities.

You can select the pertinent facility from the list to display the surveys for just that facility. If you want to switch facilities, the Home button returns you to the Facility List.

**Note:** Single facility users do not see this page.

#### Filter the Facility List

To apply a dynamic filter to the list of facilities, you simply enter text in the Search field. For example, if you enter “18” in the Search box, only those facilities that include “18” in any column are displayed. If one facility’s CCN contains “18” and another facility’s address contains “18”, both facilities are displayed.
Navigate the Facility List

You can filter and sort the Facility List to meet your needs. By default, facilities are sorted alphabetically by name.

To access and navigate the Facility List:

1. Open **ASPEN Web: ePOC**.
   The Facility List is displayed if you are a multi-facility user.

2. To change sort order, click a column header.
   For example, click the CCN column header to sort by CCN.

3. To filter the list, enter the appropriate alphanumeric text in the **Search** field.

4. To access the **Survey List** for a facility, click its **CCN**.

More ...

Procedure: “Accessing ASPEN Web: ePOC” on page 12
Screen: Facility List on page 32

View the Survey List

For multi-facility users, the Survey List is displayed when a facility is selected from the Facility List. For single facility users, the Survey List opens immediately after login to ASPEN Web: ePOC. It displays the 25 most recent surveys for the facility. If more than 25 surveys exist, page navigation keys allow access to the additional surveys.

The Survey List displays all surveys for the facility—regardless of survey type—that have been successfully posted to the ePOC website by the SA/RO. It includes federal and state, starting and revisit, Health and LSC surveys.

Deficiency counts exclude comment/memo tags (0000 and 9999) and tags that have been changed or removed (likely due to Informal Dispute Resolution or Independent Information Dispute Resolution). The # Def (Number of Deficiencies) and deficiencies Approved/Disapproved counts, which include PNC and A-level tags, enable users to identify surveys already approved and surveys requiring attention. Once acknowledged, PNC and A-level tags are counted as Approved.
Filter the Survey List

To apply a dynamic filter to the list of surveys, you enter appropriate text in the Search field. For example, if you enter “18” in the Search box, only those surveys that include “18” in any column are displayed. If one survey’s Exit Date contains “18” and another survey’s POC Due Date contains “18”, both surveys are displayed.

Navigate the Survey List

You can filter and sort the Survey List to meet your needs. By default, surveys are sorted by SOD Sent Date, from the most recent to the oldest.

To access and navigate the Survey List:

1. Open ASPEN Web: ePOC.
   
   The Facility List is displayed if you are a multi-facility user. The Survey List is displayed if you are a single facility user; go to step 3.

2. If you are a multi-facility user, click a facility’s CCN to open the Survey List for that facility.

3. To change sort order, click a column header.
   
   For example, click the Event Id column header to sort by Event ID.

4. To filter the list, enter the appropriate alphanumeric text in the Search field.

5. To access the Survey Detail page for a survey, where you can view information about uncorrected deficiencies, click the survey’s Event Id.

6. To view the CMS-2567, CMS-2567B, or “A” Form for a survey, click the button in the Reports column and select 2567, 2567B, or “A” Form.

   The available options depend on the survey. For example, 2567B is available only for revisit surveys with corrected tags.

   **Note:** The only way to view corrected deficiencies is to print the 2567B. If all deficiencies are corrected, a message tells you no POC is required.

Until the POCs for all deficiencies on the survey are approved, a POC Not Final watermark appears on the 2567 and A forms.

More ...

Procedure: “Accessing ASPEN Web: ePOC” on page 12
Screen: Survey List on page 33
View Survey Detail

The Survey Detail page opens when a survey Event ID is selected from the Survey List. It displays all deficiencies cited on that survey for which the SA/RO needs a response, including PNC, A-level, and comment tags (0000 and 9999). Tags removed due to IDR/IIDR are not displayed.

The deficiencies are listed at the upper left and details about each (tag number, title, regulation text, POC text, POC status, etc.) are presented in the grid. You can go directly to a tag in the Survey Detail grid, or access it via the deficiencies list in the upper left of the page. You can also generate the CMS-2567/“A” Form.

Immediate Jeopardy (IJ), Substandard Quality of Care (SQC), and Past Noncompliance (PNC) tags are flagged in both the deficiency list and grid, to bring them to your attention.

On LSC surveys, deficiencies are grouped by building; there is a grid for each building. If a deficiency is cited for more than one building, it is listed for each applicable building.

When the SA/RO rejects a POC (POC status = Rejected), you can immediately review the rejection information and submit a revised POC.

If there are tags in Pending status (POC was saved as a draft but not submitted), the Submit All Pending button appears. When selected, all pending tags with a Completion (X5) date are submitted. The user is notified of any tags that do not have an X5 date.

If a survey is deficiency-free (0000 and/or 9999 tags only), the Acknowledge SOD button is available to acknowledge viewing the survey.

To access and navigate the Survey Detail page:

1. Open the Survey List and select the Event Id of a survey to open the Survey Detail page.
2. Go directly to the tag in the grid; to bring a tag into view in the grid (when there are many tags), scroll down to it.
   -or-
   Click the tag in the Deficiencies list to display it in the grid.
3. If Regulation, Observations, or final Plan of Correction text for a tag is truncated in the grid, select [MORE] to display the complete text.
4. Click a tag number in the grid to open the Plan of Correction entry page for that tag.
To view the CMS-2567, CMS-2567B, or "A" Form, click the Reports button (printer icon) above the grid and select 2567, 2567B, or "A" Form. The available options depend on the survey. For example, 2567B is available only for revisit surveys with corrected tags.

**Note:** The only way to view corrected deficiencies is to print the 2567B. If all deficiencies are corrected, a message tells you no POC is required.

Until the POCs for all deficiencies on the survey are approved, a POC Not Final watermark appears on the 2567 and A forms.

**More ...**

Procedure: "Navigate the Survey List" on page 15
Screen: Survey Detail on page 35
Screen: Regulation text on page 37
Screen: Observations text on page 38
Screen: Plan of Correction text on page 38
Procedure: "Compose a Plan of Correction"
Screen: CMS-2567 and "A" Form on page 41

**Compose a Plan of Correction**

You can enter POC text on the Plan of Correction page for the tag selected in the Survey Detail grid.

The Statement of Deficiency column contains the tag information, regulation text, and observation text. The regulation text and Observations are expandable and collapsible by clicking on the tag title or Observations link. Any POC text already entered displays in the Facility Response column.

After entering POC text, you can submit the POC to your SA/RO as final, or save it as pending if you want to add or edit text. When you submit a POC as final, you must enter a Completion Date, and sign an attestation.

You cannot enter POC text for:

- Comment tags (0000 and 9999)
- Past Non-Compliance (PNC) tags
- A-Level Scope/Severity tags

You must, however, acknowledge these tags and surveys.
When the SA/RO rejects a POC, the reasons for rejection and explanations (if entered) are shown below the POC Description panel on the POC entry page. You can review the rejection information, revise the POC, and re-submit it.

For waiver requests, you can respond with POC text and/or enter something like “request waiver” or “request extension of waiver”. The SA/RO can choose to accept or reject the POC and/or waiver request.

**Enter POC Text**

Multiple users can work on a single survey in the ePOC application. However, only one user at a time can enter or modify the POC text for a citation.

There is no limit to the amount of POC text you can enter. If you copy and paste text from another word processor, there may be problems with special characters. Be sure to carefully review text pasted in from an external word processor and remove any odd characters.

POC Instructions, above the POC Description, guide the user on entry of a POC Description and Completion Date (X5). Click on the POC Instructions title to expand or collapse the instruction text. Instructional text does not display for tags with scope/severity level-A or for tags marked Past Non-compliance (PNC).

**To enter Plan of Correction text:**

1. Open the Survey Detail page.
2. To open the Plan of Correction entry page for a tag, click it in the grid.
3. In the Facility Response panel, enter POC text in the POC Description box.
   
   You can enter an unlimited amount of text.
4. Enter or select (from the calendar) the Completion Date (X5).
5. Click the Save as Pending or Submit as Final button.

If you select Save as Pending, the status of the tag changes to Pending. If you select Submit as Final, the Attestation of POC Submittal Terms and Conditions page opens.
If the Completion Date is more than 6 months after the Survey Exit date, an overridable message is displayed when you select Submit as Final.

![Completion Date message](image)

*Figure 2: Completion Date message*

**More ...**
- Procedure: “View Survey Detail” on page 16
- Screen: Survey Detail on page 35
- Screen: Plan of Correction entry page on page 39
- Procedure: “Submit and Attest POCs” (just below)
- Procedure: “A-level and PNC tags” on page 25
- Procedure: “Deficiency-free Surveys” on page 26

**Timing Out**

If you do not enter POC text for a period of 15 minutes, a message appears and you have the option of keeping the Plan of Correction page open (for another 15 minutes) or not. If you do not respond within one minute, the page is automatically closed. Unsaved work is lost and the POC is released for editing by another user.

If you close the browser or back out of the page while editing a POC, the ePOC application assumes you are still editing it. In such a case, the lock on that POC is released automatically after 17 minutes.

**POC Backup**

ASPEN Web: ePOC automatically backs up POC text every two minutes. If the application closes unexpectedly, you can recover unsaved POC text entered prior to the last backup.

When you log back into ASPEN Web: ePOC and open the Plan of Correction entry page for the applicable tag, a message appears and offers the option of restoring the unsaved Plan of Correction text. If you choose OK, the automatically saved text is entered in the POC Description field.
Submit and Attest POCs

When you submit a POC as final, the Attestation of POC Submittal Terms and Conditions page is displayed. You can sign this attestation electronically. You have the option of submitting all pending POCs as final and signing the attestation for all the POCs at once. As soon as POCs are submitted, POC Status for the applicable tags changes to Submitted.

The Attestation page lists the deficiencies for which the attester is submitting POCs. If you are not ready to sign the attestation, you can back out of the Attestation page.

To submit and attest POC(s):

1. On the Plan of Correction entry page, click Submit as Final for the current POC.

   -or-

   On the Survey Detail page, click Submit All Pending to submit all pending POCs.

2. On the Attestation of POC Submittal Terms and Condition page, review the list of POC(s) you are submitting.

3. To submit the POC(s), select the Electronic Signature checkbox and click Continue.

   The Survey Detail page opens. A “POC for <tag#> successfully submitted” message for each submitted POC appears at the top of the page and the status of the POC(s) is now Submitted. The submitted POCs are read-only unless and until they are rejected by the SA/RO.

4. If you do not want to sign the attestation yet, click Back.

   ePOC saves the POC(s) as pending and you return to the previous page.

Toolbar and Menu

The toolbar on ASPEN Web: ePOC application pages provides the following navigation aids and links to useful information, depending on the current page:

- Home icon
- Breadcrumbs
- Menu

The menu is included in the toolbar on several ePOC pages and has some or all of the following options, depending on the current page:

- Instructions
- Users
- About ePOC
- Procedures Guide
- ASPEN Web menu
- Log Out

More ...

Screen: Toolbar on page 30

Return to “Home” page

The Home icon returns multi-facility users to the Facility List page; single-facility users return to the Survey List for the facility.

To return to your Home page:

➡️ On the left side of the ASPEN Web: ePOC toolbar, click the Home icon.

Use “Breadcrumbs” to Navigate

Breadcrumbs to the right of the Home icon show your path to the current location and are links to pages in that path.

To navigate using breadcrumbs:

➡️ Click a breadcrumb link to go to that page.
Use Menu Options

Available options on the ePOC application menu depend on the current page.

To access items on the ePOC menu:
1. On the right side of the ASPEN Web: ePOC toolbar, click the menu icon.
2. Select the Instructions option to view the Facility Instructions page.
3. Select the Users option to view the Users page.
4. Select the About ePOC option to view ePOC version information.
5. Select the Procedures Guide option to open this procedures guide.
6. Select the ASPEN Web Menu option to return to the Select Application page.
7. Select the Log Out option to log out of the ASPEN Web: ePOC application.

Screen: About ePOC on page 32

Optional ePOC Items

Survey Letters

If the SA/RO posts letters with the survey/SOD, you can view them via the Survey List. This includes any letters generated for ASPEN Enforcement Manager (AEM) cases related to the survey and for intakes linked to the survey. A count of the letters posted for each survey is given next to the envelope icon.

When you click the envelope icon, letters are listed in descending order based on date created with a brief description (i.e., ASPEN letter name) of each. The letter date is a link; you can click it to open the letter in its entirety in your default RTF viewer, e.g., Microsoft Word.

If the SA/RO adds or removes letters after posting a survey to the ePOC website, letter information and availability is updated immediately. The SA/RO may choose to alert the facility about a new or revised letter, which generates a Letter Notification for Facility email.
To review a survey letter:

1. Open the Survey List.
2. In the Letters column, note the letter count for each listed survey.
3. To review a letter, click the envelope icon for the applicable survey.
4. On the Letters page, locate the letter you want to view and click its Letter Date, then click Open to view the letter as an .RTF file.
5. Exit the letter, then click outside of, or close the Letters page to return to the Survey List.

“Remove Posting from ePOC Website” on page 65

Attachments

To support the POC(s) for the tag(s) on a survey, you can attach (or remove) supplemental documentation at any time prior to final POC approval. A count of the attachments to each survey is given next to the paper clip icon above the Survey Detail grid.

When you click the paper clip, the Attachments page opens with a list of attachments to the survey (if any) in alphabetical order by filename and a brief description of each. From here, you can add, remove, or view attachments.

Supported document types are .DOC, .DOCX, .XLS, .XLSX, .PDF, .JPG, .JPEG, .GIF, .TIFF, and .TXT. File size is limited to 4MB per attachment. A statement in the Add an Attachment section on the Attachments page emphasizes the need to protect patient confidentiality.

Upon approval of POCs for all tags on a survey, your attachments are removed. No record of them is retained within the ePOC system.

To attach a file:

1. Open Survey Detail for the survey.
2. Click the paper clip icon above the grid to open the Attachments page.
3. In the Add an Attachment section, click the Browse button to locate the file and enter its name.
4 Enter a brief **Description** of the attachment.

5 Click the **Attach** button.
   
The attachment is added to the Attachments grid.

6 Repeat for additional attachments.

7 Click outside of, or close the Attachments page to return to the Survey List.

**To view an attachment:**

1 On the **Survey Detail** page, click the paper clip icon above the grid to open the **Attachments** page.
   
The filename of each attachment is a link.

2 Click the **File Name** of the attachment you want to view.

3 Choose **Open** in the message that appears.
   
The attachment opens in the appropriate application.

4 Close the attachment to return to the Attachments page.

5 Click outside of, or close the Attachments page to return to the Survey List.

**To delete an attachment:**

1 On the **Survey Detail** page, click the paper clip icon above the grid to open the **Attachments** page.

2 In the **Delete** column, click the **X** for the attachment you want to delete.
   
The attachment is deleted.

   **WARNING!** There is no confirmation message, so be sure you want to delete the attachment.

3 Click outside of, or close the Attachments page to return to the Survey List.

ePOC Special Cases

Though not common, several special situations may arise during the POC process. ASPEN Web: ePOC is designed to accommodate these cases.

A-level and PNC tags

A-level Scope/Severity and PNC deficiencies for federal or state surveys are included on the Survey Detail page. POCs are not permitted for these tags; however, acknowledgement of the SOD is required. Attestation is not required.

ePOC displays instructions for A-level Scope/Severity (shown below) and PNC tags in the Facility Response section on the Plan of Correction entry page.

![Figure 3: POC not required for A-level tags](image)

When acknowledged, these tags are automatically approved. If an A-level or PNC tag is the last tag submitted and the POCs for all other tags are already approved, the Final POC Approved email is sent. A-level or PNC tags that are not acknowledged are included in ePOC tardiness reports and emails.

The CMS-2567 report includes PNC tags. A-level Scope/Severity tags are printed on the separate “A” Form.

To acknowledge an A-level or PNC tag:

1. Open the Survey Detail page for a survey with A-level and/or PNC tags.
2. Click an A-level or PNC tag in the grid to open the Plan of Correction entry page.
3. In the Facility Response section, click the Acknowledge button.

You return to the Survey Detail page where the Status of the A-level or PNC tag is now Approved.

Procedure: “View Survey Detail” on page 16
Screen: Survey Detail on page 35
Screen: Plan of Correction entry page on page 39
Screen: CMS-2567 and “A” Form on page 41
Deficiency-free Surveys

A POC is not required for surveys without deficiencies. The facility user is required only to read the information in the comment/memo tags (0000 and 9999) and acknowledge the SOD. Once acknowledged, the deficiency-free survey's POC status changes to Closed.

To acknowledge a deficiency-free survey:

1. Open the Survey Detail page for a deficiency-free survey.
2. Click Acknowledge SOD (above the grid, on the right).

An Acknowledgement message appears at the top of the page and the survey Status (above the grid, on the left) is now Closed.

Re-Posted Surveys

There may be occasions when the SA/RO needs to make changes to a survey that has already been posted to ASPEN Web: ePOC. For example, changes to tags on a survey may be needed due to IDR/IIDR. The SA/RO will re-post the survey to ASPEN Web: ePOC once the changes are made. Facility users receive the Survey Results Re-Posted to Facility email notification when the survey is re-posted. It identifies tags that have been changed and the reason for the re-posting.

More ...

“Survey Results Re-Posted to Facility” on page 56

ePOC Emails

Automated e-mail notifications facilitate communication between you and your SA/RO during the ePOC process. Descriptions and sample text of these email notices are included in the “Supporting Materials” chapter.

More ...

“ePOC Email Notices” on page 55
This chapter contains screen shots and brief descriptions of pages you may use when working in ASPEN Web: ePOC.

If you are viewing this document online, take advantage of the hyperlinks—you can click the cross-reference at the top of a graphic to jump to detailed descriptions of the fields and buttons on that section of screen.

**Letters**

*Letters grid*

**Letter Date**
Date the SOD letter was generated. The letter date is a link; click it to open the letter in your RTF viewer.

**Letter Description**
Name of letter template used in ASPEN to generate the SOD letter.

*Figure 11: About ePOC*

**Facility List**

For facility users associated with multiple facilities, i.e., users enrolled for multiple ePOC-activated facilities, the Facility List appears and displays an alphabetical list of up to 25 of those facilities.

The Facility List window is organized into two sections. The Search option allows you to enter search terms to filter the facilities in the grid below. The grid displays a list of facilities.

![Facility List](image)

*Figure 12: Facility List*

If you are associated with more than 25 facilities, you can scroll to the bottom of the page and use page navigation keys to access the additional facilities.

![Facility List navigation keys](image)

*Figure 13: Facility List navigation keys*
Survey List

The Survey List is organized into two sections. The Search field allows you to filter the surveys displayed in the grid below. The grid displays a list of the surveys for the facility.

Figure 14: Survey List
Hovering your mouse pointer over the question-mark icon in the Category column displays a pop-up list of survey categories.

Figure 15: Survey List with Category list displayed
Letters

Opens when you click the envelope icon for a survey in the Survey List. You can view letters posted by SA/RO, in their entirety, as an RTF document in your RTF viewer, e.g., Microsoft Word.

*Fields: Letters on page 47*

*Figure 16: Letters window*
Survey Detail

The Survey Detail page displays a grid with deficiency information for the survey, and POC submittal information for each deficiency in the grid.

From this page, you can generate the CMS-2567 A and CMS-2567 forms for the survey. In the second column, you can click [MORE] (if present) to display complete regulation or surveyor evidence text for the deficiency. In the third column, you can click [MORE] (if present) to display complete POC text for the deficiency.

**Fields: Survey Detail on page 47**

![Survey Detail Grid](image)

*Figure 17: Survey Detail: Health survey*
On LSC surveys, deficiencies are grouped by building; there is a grid for each building. If a deficiency is cited for more than one building, it is listed for each applicable building.

**Figure 18: Survey Detail: LSC survey**
Attachments

Opens when you click the paper clip icon in Survey Detail. You can add or remove attachments to the POC, unless the survey is closed (normally after the POC for all tags has been approved).

Attachments window

Figure 19: Attachments window

Regulation text

Displays the complete regulation text for the deficiency when you click [MORE] on the Survey Detail page.

Regulation

The resident has the right to refuse treatment, to refuse to participate in experimental research, and to formulate an advance directive as specified in paragraph (b) of this section.

The facility must comply with the requirements specified in subpart I of part 489 of this chapter related to maintaining written policies and procedures regarding advance directives. These requirements include provisions to inform and provide written information to all adult residents concerning the right to accept or refuse medical or surgical treatment and, at the individual’s option, formulate an advance directive. This includes a written description of the facility’s policies to implement advance directives and applicable state law.

Figure 20: Regulation
Observations text

Displays complete observations text, i.e., surveyor evidence, for the deficiency when you click [MORE] on the Survey Detail page.

![Observations](image)

The resident has the right to refuse treatment, to refuse to participate in experimental research, and to formulate an advance directive as specified in paragraph 9 of this section.

The facility must comply with the requirements specified in section 1 of part 499 of this chapter related to maintaining written policies and procedures regarding advance directives. These requirements include provisions to inform and provide written information to all adult residents concerning the right to accept or refuse medical or surgical treatment and, at the individual's option, formulate an advance directive. This includes a written description of the facility's policies to implement advance directives and applicable state law.

Figure 21: Observation Text

Plan of Correction text

Displays the complete Plan of Correction text for the deficiency when you click [MORE] on the Survey Detail page.

![Plan of Correction](image)

You can enter up to 250 characters into this POC Description field. You can enter up to 250 characters into this POC Description field. You can enter up to 250 characters into this POC Description field. You can enter up to 250 characters into this POC Description field. You can enter up to 250 characters into this POC Description field.

Figure 22: POC text
Plan of Correction entry page

In the Deficiency column on the Survey Detail page, click the tag number to display this page in order to draft, save, and submit the POC response, and to enter the Completion (X5) Date. If a POC is rejected, the reasons for rejection display at the bottom of the page. You can expand/collapse the Tag text, Observations, and POC Instructions by clicking on their titles.

Figure 23: Plan of Correction
Facility Response

You cannot enter POC text on the POC Entry page for A-Level Scope/Severity tags; instead, click the Acknowledge button in the Facility Response section.

Figure 24: Facility Response if S/S=A
You cannot enter POC text on the POC Entry page for PNC tags; instead, click the Acknowledge button in the Facility Response section.

Figure 25: Facility Response if PNC tag

Attestation

The Attestation page displays after you click Submit as Final on the POC Entry page, and after you click Submit All Pending on the Survey Detail page. You can electronically sign the Plan of Correction for your facility on this page.

Fields: Attestation on page 53

Figure 26: Attestation
CMS-2567 and “A” Form

The CMS-2567 details the deficiencies found on the survey of the facility; it includes PNC tags and memo/comment tags (0000, 9999). A-level Scope/Severity tags are printed on a separate “A” Form. The Plan of Correction column for PNC tags indicates no POC is needed. The Plan of Correction column does not appear on the “A” Form for A-level tags.

Until the POCs for all deficiencies on the survey are approved, the POC Not Final watermark appears on the form. When all POCs are approved, the watermark is removed and you can print the CMS-2567 form(s) for posting on the premises.

Figure 29: “A” Form - Final
For each field or button in a window or section of window, the name is given followed by a description. Their order corresponds to the order of the screen graphics in the previous chapter, ePOC Screens. Function buttons not included within a section are listed under the heading Buttons.

You will see a ? (question mark) to the right of some column titles. Move the cursor over the ? to display a definition of the column.

## ePOC Startup Pages

### ASPEN Web: ePOC Login

**User ID**
Your assigned QIES user ID.

**Password**
Your QIES user password.

**Login button**
Logs you in and opens the Select Application window.

### ePOC Application Pages

**Toolbar**

**Home**
Returns a multi-facility user to the Facility List page. Single-facility users return to the Survey List for that facility.

**Breadcrumb links**
Breadcrumbs show your path to the current location. You can click a link to go to that page.

**Menu icon**
Click to display options, which include some or all of the following, depending on current page.
Menu

Instructions
Opens the Facility Instructions page. It provides instructions for completing POCs that are specific to provider type.

Users
Opens the Users page. It lists all ePOC-enrolled users for the current facility.

About ePOC
Opens page with version information including Version, Build Date, and Build # for ASPEN Web: ePOC.

Procedures Guide
Opens this ASPEN Web: ePOC Procedures Guide.

ASPEN Web Menu
Returns you to the Select Application page.

Log Out <USERNAME>
Logs the current user out of ASPEN Web: ePOC.

Users

User ID
QIES ID assigned to the user.

Name
Name of the user.

Facility List

Search
Enter text to search in the Facility List. Search results update automatically as each character is entered.

Facility List grid

CCN
CMS Certification Number. Identification number assigned by CMS Regional Offices to providers and suppliers who meet all federal requirements for participation in the Medicare program, including the Medicare Conditions of Participation or the Conditions for Coverage, and who have completed the 855 process.

The CCN is a link; click it to open the Survey List page for the facility.
Name
Name of the facility.

Address
Location of a facility’s physical street address.

City
Name of the city where the facility is located.

State
U.S. Postal State Code where the facility is located.

Zip
Zip code where the facility is located.

Buttons

Home icon
Returns the user associated with multiple facilities to the Facility List page. Single-facility users return to the survey list for that facility.

Menu icon

Survey List

A ? (question mark) displays to the right of certain fields. Move the cursor over the ? to display a definition of the field.

Search
Enter text to search in the survey list. Search results update automatically as each character is entered.

Survey List grid

Event Id
Unique identifier assigned when the survey is created.

SOD Sent
Date the SA/RO posted the Statement of Deficiencies (survey) to the ASPEN ePOC website.

Exit Date
End date of the survey.

Type
Survey category (Health or LSC).
Status
Status of the survey (Open or Closed).

Category
Survey type code. Move the cursor over the ? to display a list of survey types.

# Def
Indicates the number of existing deficiencies.

Submitted
Indicates the number of existing deficiencies for which a POC has been submitted to the SA/RO.

Approved/Unapproved
Indicates the number of existing deficiencies with POC approved/not approved.

POC Due Date
Date by which the facility must submit a Plan of Correction.

Letters
Displays the number of letters, if any, posted for the survey. Click the envelope icon to open the Letters page, where you can view letters posted by the SA/RO. This includes survey letters as well as any letters generated for AEM cases related to the survey and for intakes linked to the survey.

Reports
2567 generates the Statement of Deficiencies and Plan of Correction, which lists uncorrected, non-A level tags. 2567B generates the Post-Certification Revisit Report, which shows corrected deficiencies. “A” Form generates the Statement of Isolated Deficiencies for the survey, which includes any uncorrected A-level scope/severity deficiencies.

The available options depend on the survey. For example, 2567B is available only for revisit surveys with corrected tags.

Note: The only way to view corrected deficiencies is to print the 2567B. If all deficiencies are corrected, a message tells you no POC is required.

Page navigation keys
For multi-facility users associated with more than 25 facilities, navigation keys at the bottom of the page (First, Next, etc.) allow access to additional facilities.
Buttons

Home icon
Returns a multi-facility user to the Facility List page. Single-facility users return to the survey list for that facility.

Menu icon
Displays links to Instructions (Facility) page, Users page, About ePOC, ASPEN Web Menu, and Log Out page.

Back
Returns you to the previous page.

Letters

Letter Date
Date the letter was generated. The letter date is a link; click it to open the letter in your RTF viewer.

Letter Description
Name of ASPEN letter generated by SA/RO.

Survey Detail

POC Submission/Acknowledgement message
Read-only. POC submission message appears only after one or more POCs are submitted by electronically signing the Attestation form. Message lists POC(s) by tag number(s) and indicates if each was successfully submitted, or not.

Acknowledgement message appears after a deficiency-free survey is acknowledged and indicates the survey’s event ID.

Deficiencies
A list of all deficiencies on the survey with current POC status indicated for each deficiency. Immediate Jeopardy (IJ), Substandard Quality of Care (SQC), and Past Noncompliance (PNC) tags are flagged in both the deficiency list and grid.

Event Id
Unique identifier assigned when the survey is created.
Survey Date
Exit date of the survey.

Status
Current POC status of the survey.

Buttons

Acknowledge SOD
This button appears only for deficiency-free surveys, i.e., surveys with memo tags only (0000 and/or 9999). Select to acknowledge the deficiency-free survey, which is then automatically approved and closed.

Submit All Pending
This button appears when at least one POC is in Pending status. Select to initiate submission of the pending POCs to the SA/RO. ePOC displays the Attestation form with a list of tags for which pending POCs will be submitted. Tags that do not have completion dates are not submitted. You can choose to proceed or halt the process at this point. Submit All Pending can be used multiple times if needed.

Attachments (paper clip)
Displays the number of attachments to the survey in support of POC(s), if any. Click the paper clip icon to open the Attachments page, where you can attach supporting documents. You can also view existing attachments.

Note: Facility-submitted attachments are removed from the ePOC website upon final approval, i.e., when the last tag’s POC is approved.

2567/2567B/”A” Form
2567 generates the Statement of Deficiencies and Plan of Correction, which lists uncorrected, non-A level tags. 2567B generates the Post-Certification Revisit Report, which shows corrected deficiencies. “A” Form generates the Statement of Isolated Deficiencies for the survey, which includes any uncorrected A-level scope/severity deficiencies.

The available options depend on the survey. For example, 2567B is available only for revisit surveys with corrected tags.

Note: The only way to view corrected deficiencies is to print the 2567B. If all deficiencies are corrected, a message tells you no POC is required.
Back

Returns you to the previous page.

Home icon (in toolbar)

Returns a multi-facility user to the Facility List page. Single-facility users return to the survey list for that facility.

Menu icon (in toolbar)

Survey Detail grid

On LSC surveys, deficiencies are grouped by building, so there is a grid for each building.

Deficiency #

Tag number of the cited deficiency. Immediate Jeopardy (IJ), Substandard Quality of Care (SQC), and Past Noncompliance (PNC) tags are flagged in both the deficiency list and grid.

Note: On LSC surveys, if a deficiency is cited for more than one building, it is listed for each applicable building.

S/S

Scope/severity level of the deficiency. The S/S label is displayed only if scope/severity is applicable.

Building

LSC surveys only. ID and name of building to which the citation applies.

Initial Comments

Comments entered via tag 0000 by the survey team during the survey. Optional except on a deficiency-free survey.

Regulation

Up to 100 characters of regulation text for the current tag.

Observations

Up to 100 characters of observations text, i.e., surveyor evidence, for the current tag.

Plan of Correction

Up to 250 characters of Plan of Correction text (if any) entered by the facility.
[MORE]

A [MORE] link at the end of Regulation, Observations, or final Plan of Correction text, indicates there is additional text. Click it to open the Regulation, Observations, or Plan of Correction window respectively so you can read all the regulation/observations/final POC text for the tag.

**Note:** The [MORE] link is not displayed for pending POCs.

**Completion Date**
Date by which the provider states the deficiency will be corrected.

**Status**
Current POC status of the deficiency. Available options are: No POC, Submitted, Pending, Approved, and Rejected.

**Date**
Date the current POC status was assigned.

**Attachments**

**Attachments grid**

**File Name**
File name of the attachment. Supported document types are .DOC, .DOCX, .XLS, .XLSX, .PDF, .JPG, .JPEG, .GIF, .TIFF, and .TXT. File size is limited to 4MB per attachment.

**Description**
Short description of the attachment.

**Delete**
Select to remove the attachment from the survey.

**Add an Attachment**

**File/Browse**
Select the Browse button to locate the file and enter its name.

**Description**
Enter a short description of the attachment.

**Attach**
Select button to attach the file to the survey.
Plan of Correction entry page

**Tag #**
Tag number of the cited deficiency.

**Event Id**
Unique identifier assigned when the survey was created.

**Survey Exit**
Read-only. Exit date of the survey.

**POC Due**
Read-only. Date by which the facility users must submit the POC.

**Survey Posting**
Read-only. Date the survey was posted to ASPEN Web: ePOC.

**POC Status**
Read-only. Status of the POC. Facilities can submit their POC information on a tag-by-tag basis, or for the entire survey. Options are:
- **No POC**
  Deficiency is newly released to the facility.
- **Facility Draft (Pending)**
  Indicates the facility user saved preliminary/draft POC information. Draft POC information is not visible to SA or RO users.
- **Submitted**
  Facility user submitted the tag's POC for SA/RO review.
- **Rejected**
  The POC was rejected. Rejection reasons are displayed at the bottom of the page.
- **Approved**
  POC approved by SA/RO.

**Statement of Deficiency**
Read-only. Tag information, regulation text, and Observations for the deficiency. The regulation text and Observations are expandable and collapsible by clicking on the tag title or Observations link.

**Facility Response (POC)**
POC Instructions, Facility's Plan of Correction for the deficiency (POC Description), and Completion Date. Facility users can update the POC Description if POC Status is No POC, Facility Draft, or Rejected. Read-only after the POC is submitted and/or approved.
Completion Date (X5)
Date by which the facility user states they will have implemented the POC and corrected the deficiency. Must be greater than the Exit date.

Rejection Reasons
Read-only. Displayed if POC Status is Rejected. Lists reasons the SA/RO rejected the POC.

Buttons
Back
Returns you to the previous page.

Acknowledge
Displayed only for PNC and A-tags, for which POCs are not required. Select this button to acknowledge the tag, which is then automatically approved.

Save as Pending
Click to save the POC as pending, but not submit it. Completion Date (X5) is not required.

Button available if POC status is No POC, Facility Draft, or Rejected. Not available after the POC is submitted and/or approved.

Submit as Final
Select to initiate final submission of the POC. Completion Date (X5) and POC Description are required.

Button available if POC status is No POC, Facility Draft, or Rejected. Not available after the POC is submitted and/or approved.
Attestation

Upon final submission, ePOC displays an Attestation of POC Submittal statement. It lists the tags (deficiencies) and completion dates for which the attester is submitting a POC.

Electronic Signature checkbox

Select this checkbox to electronically sign the attestation for the listed POC(s). Leave blank or deselect the checkbox (and click Back) to save as pending, but not submit, the POC(s).

Buttons

Continue

When pressed (and Electronic Signature checkbox is selected), submits the listed POC(s) and returns to the Survey Detail page, where a message lists the POC(s) and indicates if submission was successful.

Back

Returns you to the previous page.
Supporting Materials

The following reference items are included in this chapter:

- ePOC email descriptions and text
- ASPEN Web: ePOC keyboard shortcuts

ePOC Email Notices

This section contains descriptions and text of the automatically generated ePOC email notices that facility users may receive. The Letter Notification email is optionally generated by the SA/RO.

Sample Email

Subject: POC for Tag #0151 Rejected: DOHX11 – BAXTER HEALTH CARE CENTER (Survey Completed 03/23/2013)

Facility: 165398/BAXTER HEALTH CARE CENTER
Facility Type: SNF/NF
Survey Category: CMPIVT,OTHER
Survey Dates: 03/22/2013 - 03/23/2013
Event ID: DONX11

Your Plan of Correction (POC) for Tag: 0151/RIGHT TO EXERCISE RIGHTS - FREE OF REPRISAL was rejected on 05/14/2013 for the following reason(s):

- Does not contain elements detailing how the facility will correct the deficiency as it relates to the individual.
- Does not indicate how the facility will act to protect residents in similar situations.
- Does not include the measures the facility will take or the systems it will alter to ensure that the problem does not recur.
- Other. Awaiting proof of concept.

Please submit a revised POC via the ASPEN Web: Electronic Plan of Correction (ePOC) website. Please login to the CMSNET VPN, click on the bookmark labeled 'CMS QIES Systems for Providers', then click on the Aspen Access (ePOC) hyperlink as soon as possible or by a date that may be specified in comments in ePOC.

Contact your state survey agency or CMS regional office, as appropriate, with questions regarding this matter.
