## **Introduction**

The North Dakota Health Care Data Law (NDCC 23-01.1) requires the Health Care Data Committee to prepare an annual report that compares average nursing facility charges. This document is intended to help consumers make informed health care purchasing decisions.

The nursing facilities included in this document are licensed to provide long-term nursing care in North Dakota. The section on rates lists the facilities geographically according to the Governor's eight planning regions.

The following section lists the facilities alphabetically by city and provides the address and phone number of each. It also includes the key personnel and licensed capacity for each facility.

The final section provides a description of the case mix system employed to assess and classify each nursing facility resident in North Dakota. This section also provides definitions of the major categories and subgroups used in the case mix system and displayed in the section on rates.

The 1987 North Dakota Legislature established the framework for a case mix-based reimbursement program and also established rate equalization between Medicaid residents and self-pay residents. This program was implemented Jan. 1, 1990, and established rates for each facility based on intensity of service. Effective Jan. 1, 1999, each facility has 34 case mix classifications, with corresponding payment rates assigned to each.

All listed rates reflect the daily charges that are assigned to the case mix classification. These classifications reflect the differing health and service needs of individual residents. Residents who need many services are charged higher rates than residents who require fewer services.

The rate equalization feature of the North Dakota system ensures that residents within a given nursing facility, with similar health conditions and service needs, are charged the same amount regardless of the source of payment.

Rates may differ significantly between facilities, even though largely similar services are provided. Differences in rates reflect the age of the buildings, amount of indebtedness, staffing levels and the prevailing wage and price characteristics in different areas of North Dakota.

The listed rates do not include the resident's monthly personal needs allowance and are based on double occupancy. A facility may charge additional fees for a private room or for special services that are not part of the resident's classification rate.

\* Private Pay Rates set effective January 1, 2001, pending the outcome of the facility's appeal to the Department of Human Services. This represents the maximum allowable rates for private pay residents. Specific facilities may charge less than the maximum rates.

\*\* Special Care Facility for the Traumatic Brain Injured. Has a single rate established for specialized care.

\*\*\* Special Care Facility for Gero-psychiatric Residents. Has a single rate established for specialized care.

\*\*\*\*Special Care Facility for the Traumatic Brain Injured. Facility not operating - no rate established.

◆ Not a Medicaid certified facility – not subject to Case Mix rate limits

◆◆ Specially defined clientele – rates established outside the Case Mix System

## **North Dakota Case Mix System**

## North Dakota Case Mix System

The rates for each nursing facility are computed annually by the Department of Human Services and are based on information obtained from the facility's cost report. The determination of rates is the sum of four components: property, indirect care, direct care and other direct care. With the exception of the property rate, a limit rate has been established for each category as follows: indirect care, \$32.93; direct care, \$78.99; other direct care, \$13.72. These limit rates are indexed annually using the same indexing specified in statute for computing actual facility rates.

**Property Rate** includes depreciation, interest expense, property taxes, lease and rental costs, start-up costs, and reasonable legal expenses. This rate is established on the basis of "allowable costs," with no limitations applied.

**Indirect Care Rate** includes costs associated with administration, plant operation, housekeeping, medical records, chaplain, pharmacy services and dietary salaries. The established indirect care rate is the lesser of the actual rate or the limit rate. In addition, as an incentive for cost containment, if a facility's indirect care rate is less than the limit rate, 70 percent of the difference, up to a limit of \$2.60, is added to the indirect care rate.

**Direct Care Rate** is based on costs associated with nursing and therapy services (compensation, supplies, equipment and training). A rate weight of one (or the facility's base rate) is calculated based on the lesser of the actual rate or the limit rate. Case mix weights are then applied to the base rate according to the resident classification system, which is discussed below. An

operating margin is then added to arrive at the direct care rate for each resident. The operating margin is 3 percent of the lesser of the actual direct care rate or the direct care limit rate for the preceding year.

**Other Direct Care Rate** is based on costs for food, dietary supplements, laundry, social service and activities. The facility rate for other direct care is the lesser of the actual other direct care rate or the limit rate. An operating margin consisting of 3 percent of the lesser of the actual other direct care rate or the other direct care limit rate for the preceding year is added to arrive at the facility's other direct care rate.

The case mix measurement system is a means of payment for resident care based on documented evidence of the intensity of care and services provided to the resident. A resident is reviewed by the facility within 14 days of admission to the nursing facility. The resident's classification is based upon information contained in a form called the Minimum Data Set (MDS). An interdisciplinary team at the facility completes the MDS to determine the care and service required by the resident. Information from the resident's medical record is used to complete the MDS. The completed MDS is sent to the North Dakota Department of Human Services, where a classification is assigned based on the needs of the resident and the services provided as identified in the MDS. Resident classifications are divided into seven major clinical groups. Each clinical group is divided into subgroups based on the resident's activities of daily living (ADL) score, the need for nursing rehabilitation, and presenting signs of depression.

The ADL score reflects the degree of assistance required in four specific areas: eating, toileting, transferring and bed mobility. The ADL score ranges from four to 18, with four representing independence and minimal supervision, and 18 representing complete dependence in these ADLs.

Nursing rehabilitation is considered as being provided if a resident receives two or more of the following for at least 15 minutes per day, at least six of the seven days preceding the assessment:

- Passive or active range of motion
- Amputation or prosthesis care
- Splint or brace assistance
- Dressing or grooming training
- Eating or swallowing training
- Bed mobility or walking training
- Transfer training
- Communication training
- Scheduled toileting or bladder retraining

Signs of depression are considered present if the resident exhibits at least three of the following:

- Negative statements
- Repetitive questions
- Repetitive verbalization
- Persistent anger with self and others
- Self-deprecation
- Expressions of unrealistic fears
- Recurrent statements that something terrible is to happen
- Repetitive health complaints

- Repetitive anxious complaints or concerns of non-health related issues
- Unpleasant mood in morning
- Insomnia or changes in usual sleep patterns
- Sad, pained or worried facial expression
- Crying or tearfulness
- Repetitive physical movements
- Withdrawal from activities of interest
- Reduced social interaction

The major clinical groups and corresponding subgroups have the following special characteristics:

**REHABILITATION**

The resident must receive nursing rehabilitation services and qualify for the extensive services, special care, or clinically complex categories. A subgroup is assigned based on the resident’s ADL score.

<u>Subgroup</u>	<u>ADL Score</u>	<u>Rel. Weight</u>
Rehabilitation D	17 – 18	1.79
Rehabilitation C	14 – 16	1.54
Rehabilitation B	9 – 13	1.26
Rehabilitation A	4 – 8	1.07

**EXTENSIVE SERVICES**

Within 14 days preceding the assessment, the resident must have received intravenous medication or tracheostomy care; required a ventilator, respirator or suctioning; or received intravenous feeding. A qualifier score will be assigned based on clinical criteria that qualifies the resident for the special care, clinically complex or impaired cognition categories, or whether the resident is receiving intravenous feeding or medications, or requires a ventilator, respirator or suctioning. A minimum ADL score of seven is required. A subgroup will be assigned based on

the resident's ADL and qualifier scores. If the ADL score is less than seven, the assigned classification will be Special Care A.

<u>Subgroup</u>	<u>ADL Score</u>	<u>Qual. Score</u>	<u>Rel. Weight</u>
Extensive Services 3	7 - 18	4 - 5	2.62
Extensive Services 2	7 - 18	2 - 3	1.72
Extensive Services 1	7 - 18	0 - 1	1.56

**SPECIAL CARE**

The resident has a minimum ADL score of seven and one of the following conditions or treatments:

- Multiple sclerosis, cerebral palsy or quadriplegia with an ADL score of at least 10
- Respiratory therapy seven days per week
- Treatment for pressure or stasis ulcers on two or more body sites
- Surgical wound or open lesion with treatment
- Tube feedings comprising at least 26 percent of daily calorie requirements and 501 milliliters of fluid per day, and be aphasic
- Radiation therapy
- A fever with dehydration, pneumonia, vomiting, weight loss or tube feeding

A subgroup will be assigned based on the resident's ADL score. If the ADL score is less than seven, the assigned classification will be Clinically Complex A.

<u>Subgroup</u>	<u>ADL Score</u>	<u>Rel. Weight</u>
Special Care C	17 - 18	1.50
Special Care B	15 - 16	1.39
Special Care A	7 - 14	1.33

**CLINICALLY COMPLEX**

The resident has at least one of the following conditions, treatments or circumstances:

- Comatose
- Burns
- Septicemia
- Pneumonia
- Internal bleeding
- Dehydration
- Dialysis
- Hemiplegia with an ADL score of at least 10
- Chemotherapy
- Tube feedings comprising at least 26 percent of daily caloric requirements and 501 milliliters of fluid per day
- Transfusions
- Foot wound with treatment
- Diabetes mellitus with injections seven days per week and two or more physician order changes in the 14 days preceding assessment
- Oxygen therapy in the 14 days preceding assessment
- At least one physician visit and four order changes or two physician visits and two order changes in the 14 days preceding assessment

A subgroup will be assigned based on the resident's ADL score and whether signs of depression are present.

<u>Subgroup</u>	<u>ADL Score</u>	<u>Depression</u>	<u>Rel. Weight</u>
Clinically Complex C2	17 - 18	Yes	1.46
Clinically Complex C1	17 - 18	No	1.27
Clinically Complex B2	12 - 16	Yes	1.18
Clinically Complex B1	12 - 16	No	1.17
Clinically Complex A2	4 - 11	Yes	1.08
Clinically Complex A1	4 - 11	No	1.02

### IMPAIRED COGNITION

The resident has a cognition performance scale score of three, four or five and an ADL score of less than 11. A subgroup will be assigned based on the resident's ADL score and need for nursing rehabilitation. ADL scores of more than 10 will be assigned to Reduced Physical Functioning.

<u>Subgroup</u>	<u>ADL Score</u>	<u>Rehab.</u>	<u>Rel. Weight</u>
Impaired Cognition B2	6 – 10	Yes	0.98
Impaired Cognition B1	6 – 10	No	0.88
Impaired Cognition A2	4 – 5	Yes	0.80
Impaired Cognition A1	4 – 5	No	0.67

### BEHAVIOR ONLY

The resident has exhibited in at least four of the seven days preceding assessment, any of the following behaviors:

- Resisting care
- Combativeness
- Physical abuse
- Verbal abuse
- Wandering
- Hallucinating or having delusions

A subgroup will be assigned based on the resident's ADL score and need for nursing rehabilitation. ADL scores of more than 10 will be assigned to Reduced Physical Functioning.

<u>Subgroup</u>	<u>ADL Score</u>	<u>Rehab.</u>	<u>Rel. Weight</u>
Behavior Only	6 – 10	Yes	0.97
Behavior Only	6 – 10	No	0.85
Behavior Only	4 – 5	Yes	0.69
Behavior Only	4 – 5	No	0.63

### REDUCED PHYSICAL FUNCTIONING

The resident who qualifies for no other category is assigned a Reduced Physical Functioning subgroup based on the ADL score and need for nursing rehabilitation.

<u>Subgroup</u>	<u>ADL Score</u>	<u>Rehab.</u>	<u>Rel. Weight</u>
Reduced Physical Functioning E2	16 – 18	Yes	1.04
Reduced Physical Functioning E1	16 – 18	No	0.96
Reduced Physical Functioning D2	11 – 15	Yes	0.95
Reduced Physical Functioning D1	11 – 15	No	0.87
Reduced Physical Functioning C2	9 – 10	Yes	0.86
Reduced Physical Functioning C1	9 – 10	No	0.84
Reduced Physical Functioning B2	6 – 8	Yes	0.75
Reduced Physical Functioning B1	6 – 8	No	0.68
Reduced Physical Functioning A2	4 – 5	Yes	0.66
Reduced Physical Functioning A1	4 – 5	No	0.62

A relative weight or multiplier has been determined for each resident classification based on the service requirement for the classification. The multiplier is applied to the facility's direct care base rate to determine the resident's case-mix rate for direct care.

Each resident is reviewed every three months and remains in the classification until the next review even if the condition of the resident changes, except in the event of hospitalization. In such cases, return to the facility is considered a readmission and the resident is reviewed within 14 days.

The rate schedules listed in this document are a composite of the four rate components (property, indirect care, direct care and other direct care) and are effective Jan. 1, 2002, unless otherwise footnoted. These rates will remain in effect for calendar year 2002, subject to change only upon review by the Department of Human Services.
